

## Unit F2P4 04 (267) Slice and Bag Individual Food Products

### **Unit Summary**

This Unit is about slicing and bagging individual food products using a slicing machine in a non automated food production or distribution environment.

You need to show that you can set up the slicing machine correctly, load and slice individual or small numbers of food products. You will need to show that you can select the correct bags and closures, and bag the product reliably.

In order to be assessed as competent you must demonstrate to your assessor that you can consistently perform to the requirements set out below. Your performance evidence must include at least one observation by your assessor.

Achievement of this Unit will provide you with opportunities to develop the following SQA Core Skills:

### Communication Access 2

• Read and understand very simple written communication.

### Numeracy Access 3

• Apply simple numerical skills in everyday contexts.

## Problem Solving Access 3

- ♦ Analyse a simple situation or issue.
- Plan, organise and complete a simple task.

### I have completed the requirements of this Unit.

# Slice and Bag Individual Food Products

		<b>Evidence Requirements</b>	
You must be able to		In order to be assessed as competent you must demonstrate to your assessor that you can consistently perform to the requirements set out below. Your performance evidence must include at least one observation by your assessor.  Your evidence must be work-based,	Evidence/ Activity Ref No.
		simulation alone is only allowed where shown in <i>bold italics</i>	
	Slice individual products	Evidence of slicing individual products in	
	This means you:	accordance with workplace procedures.	
1	(a) Comply with health, safety and hygiene requirements and wear the correct personal protective clothing and equipment throughout slicing operations.		
	(b) Check the available products against your instructions and specifications and take prompt action on discovering any discrepancy.		
	(c) Select and check the operating condition of slicing equipment.		
	<ul><li>(d) Load the slicing equipment correctly and ensure safety devices are activated.</li></ul>		
	(e) Slick products correctly and reliably to specification.		
	(f) Position the products correctly for further processing.		
2	Bag and close individual products This means you:	Evidence of bagging and closing individual products in accordance in workplace procedures.	
	<ul> <li>(a) Comply with health, safety and hygiene requirements and wear the correct personal protective clothing and equipment throughout bagging and closing operations.</li> <li>(b) Check the available sliced products against your instructions and specifications and take prompt action on discovering any discrepancy.</li> </ul>

You n	need to know and understand	
Evidence of knowledge and understanding should be collected during observation of performance in the workplace. Where it cannot be collected by observing performance, other assessment methods should be used.		Evidence
K1	Health, safety and hygiene requirements related to slicing and bagging food products and what might happen if they are not met.	
K2	Requirements of weighing regulations and the importance of correct slicing and bagging to maintain weight and comply with these regulations.	
K3	Common sources of food product contamination during slicing and bagging.	
K4	How to avoid contamination during slicing and bagging food products and what might happen if this is not done.	
K5	How to recognise and report sliced food products that do not meet specification.	
K6	The procedure for rejecting and isolating non compliant sliced food products.	
K7	Food product bagging materials and their basic properties in maintaining product quality and shelf life.	
K8	The width between the blades of slicing machine that provides for different thickness of slices.	
K9	How to recognise and report poor slicing machine performance caused by blunt slicing blades.	
K10	How to check colour codes or arrangements for applying correct closures.	
K11	How to check the labels on bags to ensure compliance with product specification.
