These Marking Instructions have been prepared by Examination Teams for use by SQA Appointed Markers when marking External Course Assessments. This publication must not be reproduced for commercial or trade purposes.

Candidates must demonstrate knowledge and understanding of Media Studies concepts.

The instructions below apply to all answers.

Read/view/listen to the text **before** marking. If the text is missing, please contact SQA at the number given in the general Marking Instructions.

- Check that the only information provided to the candidate by the centre is that indicated on the Flyleaf – if more has been provided, mark where this appears not to unfairly advantage or disadvantage candidates; otherwise, refer to PA.
- If malpractice is suspected, mark as normal and refer for Special Attention (M) as described in the general Marking Instructions.
- Along with the detailed marking instructions, use the attached Extended Mark Scale – corresponding to the performance criteria for Categories and Language – to assign a mark to each answer.
- Mark answers holistically across Categories and Language.
- Mark positively – credit should be given for a genuine response to the text.
- The candidate may apply other key aspects in support of the analysis of Categories and/or Language, but should not be penalised if this is not done.
- Use the full range of marks (0-20).
- Mark on content, not presentation – knowledge of Media Studies is being assessed. Where this is demonstrated, the candidate should not be penalised if the extended response/essay is not well constructed (unless understanding is impeded).
- Candidates should not be penalised because their cultural assumptions differ from those of the marker.

The Extended Mark Scale provides a description of the performance criteria relating to the key aspects assessed in the Unseen Analysis and defines the difference between them at each grade. It does not provide a description of how these key aspects may be combined in a complex response to the text.

DETAILED MARKING INSTRUCTIONS

C A T E G O R I E S								
		Poor analysis	Inadequate analysis	Analysis narrowly fails	Adequate analysis	Clear analysis	Convincing analysis	Full analysis
L A N	Poor analysis	0 – 6	6	7	7 – 8	8	8 – 9	9
	Inadequate analysis	6	7	7 – 8	8	8 – 9	9	9

These are limited to a max of 9 on the basis that they do not achieve the basic criteria for a pass.

This is limited to 13 on the basis that if one key aspect is adequate, a candidate would not achieve an A-equivalent pass. However, the marker may feel that there are factors which justify awarding a higher mark.

A holistic mark should be awarded. It is not a case of giving a mark out of 10 for each key aspect and adding them together, or of awarding a mark out of 20 for each and halving the total. Both Categories and Language must be achieved at least adequately in order to gain a pass. Markers should locate the appropriate mark on the grid above, based on their judgement of the analysis of each key aspect. A script which does not demonstrate adequate analysis of both key aspects can only gain a maximum of 9 marks, and this is reflected in the grid. The only exception to this is where the analysis of one key aspect is either convincing or full and the other narrowly fails. In such a case, a script may be awarded 10 or 11 if the marker feels this is deserved. Additionally, the marker may feel that there are aspects of an answer which justify awarding a higher mark than that indicated on the grid.
