General Marking Principles for National 5 Drama

This information is provided to help you understand the general principles you must apply when marking candidate responses to questions in this Paper. These principles must be read in conjunction with the detailed marking instructions, which identify the key features required in candidate responses.

(a) Marks for each candidate response must always be assigned in line with these General Marking Principles and the Detailed Marking Instructions for this assessment.

(b) Marking should always be positive. This means that, for each candidate response, marks are accumulated for the demonstration of relevant skills, knowledge and understanding: they are not deducted from a maximum on the basis of errors or omissions.

Overview
National 5 level candidates are required to demonstrate knowledge and understanding of both process and performance.

Section 1 is designed to test the candidates’ ability to evaluate their own and others’ work. Section 2 tests the candidates’ ability to respond to stimuli and create their own piece of drama.

Section 1
These questions require candidates to give a personal evaluative response to a piece of work they have been involved in during the course. This may be from the Drama Skills or Production Units or from the Course Assessment Performance.

The questions require candidates to demonstrate their reflection and evaluation skills.

Section 2
Candidates are required to demonstrate knowledge and understanding of creating drama by responding to stimuli. The questions should be suitable for candidates with a relatively detailed knowledge as well as those whose knowledge is more wide ranging.

General Marking Advice

1. It is possible that candidates will have performed a piece of text that is unknown to the marker or base their answer on their Drama Skills devised performance. Markers should use their professional judgement.

2. Candidates who do not respond to all aspects of a question cannot be awarded full marks.

3. Candidates can answer Section A from the view of an Actor, Lighting Designer, Costume Designer, Make-up Designer, Sound Designer, Set Designer or Props Designer.

4. Candidates will be expected to use drama terminology.

5. In Section 2 candidates should base their drama on one of the stimuli.

6. Marks should not be awarded for mere descriptive comment. At this level, candidates are expected to justify and substantiate their responses, demonstrating a knowledge of drama.
