General marking principles for Advanced Higher Music

This information is provided to help you understand the general principles you must apply when marking candidate responses to questions in this paper. These principles must be read in conjunction with the detailed marking instructions, which identify the key features required in candidate responses.

- (a) Marks for each candidate response must **always** be assigned in line with these general marking principles and the detailed marking instructions for this assessment.
- (b) Marking should always be positive. This means that, for each candidate response, marks are accumulated for the demonstration of relevant skills, knowledge and understanding: they are not deducted from a maximum on the basis of errors or omissions.
- (c) Do not accept any answer that is not in the marking instructions. Use professional judgement when candidates' responses do not exactly match marking instructions but carry the same meaning, eg plagal cadence/IV-I, plainchant/plainsong.
- (d) Candidates are asked to tick one or more boxes in multiple choice questions. Accept a cross or any other sign which makes the candidate's intentions clear.
- (e) Accept inaccurate spelling where the candidate's intention is clear.

Marking instructions for each question

Question			Expected response	Max mark	Additional guidance
1.	(a)		Suspension Renaissance Antiphonal Anthem	4	1 mark for each correct answer. Candidate responses can be listed in any order.

Question	Expected response	Max mark	Additional guidance
			<p style="text-align: center;">Additional guidance for extended answers in Q6 (b)(i)</p> <p>Similarities:</p> <ol style="list-style-type: none"> 1) Appoggiatura: this ornament features in the vocal part of both excerpts. 2) Arpeggios or broken chords: are heard in both excerpts - the harp diminished 7ths or the trumpet fanfare are examples. 3) Chromatic: the harmony used in both excerpts features chromatic chords and semitone movement. Whilst there are changes of key in excerpt 2 there are no distinct modulations. 4) Dominant 7th: both excerpts feature these chords within the accompaniment, not always at cadence points. 5) Homophonic: both excerpts are homophonic as they use a single melodic idea/theme with accompaniment. 6) Major: both excerpts are in a major tonality. (As referenced above, there are passages which use chromatic/minor chords but do not alter the main key centre which remains Major throughout.) 7) Orchestra: a 19th Century Romantic orchestra (the rich sound of the strings and use of harp and triangle) and a musical theatre orchestra - incorporating strings, woodwind (including saxophones), brass and percussion. 8) Perfect cadence: these occur in both excerpts. 9) Pizzicato: featured in string sections of both excerpts. 10) Sequence: both excerpts feature melodic sequences. 11) Syllabic: excerpt 1 features both styles of vocal writing whereas excerpt 2, as a feature of this style of music, is only syllabic. 12) Timpani: excerpt 2 clearly features timpani at the opening while in excerpt 1 the instrument is used as part of the orchestral sound. 13) Vamp: the bass - chord style of the vamp is heard in both excerpts along with the vocal line. <p>Differences:</p> <ol style="list-style-type: none"> 1) Excerpt 1 is an aria (solo song) from an opera, with Romantic orchestral accompaniment. Excerpt 2 is from a musical, accompanied by a musical theatre orchestra and features use of jazz chords (eg added 6th/7^{ths}) in the harmony. 2) Excerpt 1 is a soprano because of the range of the vocal line and the timbre of the voice. Excerpt 2 is a male trio; the timbre and range of the voices used gives no clear indication as to specific 'type' so could be either tenors or baritones. As this is a small group of soloists, singing individual melodic lines, the concepts of chorus or choir are not accurate. 3) Excerpt 1 only - melisma features particularly in the scalic, florid coloratura section. 4) Excerpt 1 only - utilises a triangle and a harp, which were regular additions to the orchestral timbre in the 19th century. 5) Excerpt 2 only - contains a number of features which are illustrative of a 1940/1950s Hollywood musical theatre orchestra - use of drum kit/cymbal, writing for trumpet which borrowed from big band orchestration - use of mutes, close harmony scoring for the trumpet section. The trumpet fanfare is a dramatic inclusion to the texture! 6) Excerpt 1 only - the acciaccatura features in the orchestral accompaniment in the strings and flute. 7) Excerpt 1 only - features a high, florid decorative melody line which can be both described as coloratura and, because of the cadential preparation and unaccompanied solo sections, a cadenza. 8) Excerpt 2 only - the harmony used in this excerpt features both conventional harmony and added 6th/7th chords which feature in jazz music of this period. 9) Excerpt 1 only - is in ternary (3 part) structure. 10) Excerpt 2 only - features imitation amongst the 3 vocalists; it is a canon, which is polyphonic/contrapuntal and fugal. The vocals also feature unison singing and contrary motion.

Question	Expected response	Max mark	Additional guidance
			<p style="text-align: center;">Additional guidance for extended answers in Q6 (b) (ii)</p> <p><u>Excerpt 1 is in the Romantic style because:</u></p> <p>The increased size of the orchestra in the Romantic period, both in terms of numbers of string players giving a fuller, richer string sound and the addition of other instruments together with a greater variety of percussion, give this both a ‘larger’ orchestral sound and a more varied timbre.</p> <p>The inclusion of both a triangle and a harp exemplify this expansion.</p> <p>The harmony used shows a development from the classical ideals of I, IV, V, VI and related major and minor keys. The music uses chromatic passages, incorporating diminished 7th chords, blurring the home key but without actually modulating.</p> <p>Rubato was used in many styles of vocal music in the Romantic period to enhance the emotional expression. It is used here by both soloist and accompaniment.</p> <p>The melodic range of the solo part, the florid scale passages and virtuosic use of the voice are features of operatic arias of this period; the use of a vocal cadenza further exemplifies this virtuosic approach to the composition of the Romantic operatic aria.</p> <p><u>Excerpt 2 is in a 20th century, Modern or Popular style because:</u></p> <p>The harmony featured in this excerpt borrows much from jazz harmony in its use of added 6th, 7th and other added note chords featured in most popular music in the early part of the 20th century.</p> <p>The orchestration includes a string section, use of saxophones, a big-band style trumpet section and a drum kit which were all features of a theatre orchestra. The Hollywood musicals developed from operas in the early part of the 20th century, incorporating features of both orchestral music and big band music, and were the bridge to the modern musicals of the 1960s, via Bernstein’s West Side Story.</p> <p>The use of mutes by the trumpet section is borrowed directly from big band style of the 1930s and 1940s. In addition, the close harmony style of scoring for the trumpets was much used by band leaders of this period.</p> <p>The rhythm of this excerpt contains a swing style/rhythm which was the main rhythmic genre of the 1930s and 1940s big band music.</p> <p>The type of voice used is very much in the style of popular music of the 1940s with an ‘American’ accent. The voices are not operatic reinforcing the popular music style of the mid-20th century.</p> <p>The vocal writing is syllabic, a trend from popular songs of the 20th century - from ‘Tin Pan Alley’ in 1910 through to present day.</p>
