General marking principles for Higher Drama

This information is provided to help you understand the general principles you must apply when marking candidate responses to questions in this paper. These principles must be read in conjunction with the detailed marking instructions, which identify the key features required in candidate responses.

- (a) Marks for each candidate response must **always** be assigned in line with these general marking principles and the detailed marking instructions for this assessment.
- (b) Marking should always be positive, ie marks should be awarded for what is correct and not deducted for errors or omissions.
- (c) If a specific candidate response does not seem to be covered by either the principles or detailed marking instructions, and you are uncertain how to assess it, you must seek guidance from your team leader.
- (d) The questions are designed to allow as broad a range of responses as possible, while at the same time anticipating some of the preferred routes through the Course taken by teachers and candidates. In all cases markers should be looking for responses which offer detailed answers to the questions posed, showing evidence of reading, understanding of, and engagement with, the subject.
- (e) To achieve clarity and consistency across Courses and levels, the following command words will be used in the Higher Drama question paper:
describe - provide a statement or structure of characteristics and/or features. This is more than an outline or a list. May refer to for instance a concept, process, situation, experiment or facts.
explain - relate cause and effect and/or make relationships between things clear.
analyse - identify parts, the relationship between them, and their relationships with the whole. Draw out and relate implications.
- (f) The question paper consists of two sections with equal weighting.

Section 1 Textual Analysis

- (a) Section 1 comprises a choice of six questions. There are two questions from the perspective of a **director**, two questions from the perspective of an **actor**, and two questions from the perspective of a **designer**. Candidates must only answer **one** question in this section. Candidates can answer any question from this Section.
- (b) Candidates are required to give an extended response to this question.
- (c) Each question is divided into two parts. Candidates will be required to demonstrate knowledge of a selected text and then go on to demonstrate how they would use either their acting concepts **or** directing concepts **or** production concepts to achieve dramatic impact. Markers should allow for two different approaches to this task. Certain candidates will prefer to answer the first part of the question (knowledge of text), point by point, immediately followed by their explanation of their production concepts, point by point. Other candidates will prefer to describe all of their knowledge of text in one go followed by details of all their production concepts in one block. Either is acceptable.
- (d) Both parts of the answer need to be related to each other. If they are not, then the second part of the response cannot be awarded marks.
- (e) Points must relate to the question posed.
- (f) Textual references are relevant quotes and/or stage directions.
- (g) **1 mark** should be awarded for each relevant point of understanding with a textual

reference which is used to respond to the question. Up to a **maximum of 5 marks**.

- (h) **1 further mark** should be awarded for each of the above points (g) if the candidates go on to give further detailed development of understanding which is insightful. Up to a **maximum of 5 marks**.
- (i) In the second part of the answer, **1 mark** should be awarded for each relevant production concept. Up to a **maximum of 5 marks**.
- (j) **1 further mark** should be awarded for each production concept if the candidate has given further detailed development of each production concept. Up to a **maximum of 5 marks**.

Section 2 Performance Analysis

- (a) Section 2 will take the form of a written analysis of a performance that the candidate has seen.
- (b) The play must be different from the selected text in Section 1.
- (c) Candidates are required to give an extended response to this question.
- (d) The production may have been performed by any professional or suitable amateur theatre company. If candidates write about an amateur production, the performance must be as much of a rigorous challenge to evaluate compared to a professional production.
- (e) Candidates may write about a theatrical production that has been video recorded. This recording should be of a live theatrical experience and not an adaptation for television. The production **must have taken place in the last two years**.
- (f) Candidates will be asked to select **two** aspects from the following list of performance analysis areas:
 - the choice and use of performance space
 - the director's intentions and effectiveness
 - the acting and development of characters
 - the set
 - lighting
 - sound
 - props
 - costume
 - make-up and hair
 - special effects
 - media.
- (g) Candidates could write about the dramatic impact and/or audience appreciation for each production area selected.
- (h) The selection of performance aspects will ensure that candidates do not 'question spot' and help to discourage prepared answers.
- (i) The selection of performance aspects will allow for the wide range of theatrical experiences that candidates may have seen.
- (j) Points must relate to the question posed.
- (k) **1 mark** will be awarded for the explanation of each feature of the performance that achieves dramatic impact and an audience response.
- (l) **1 further mark** will be awarded for an explanation that is detailed.
