Answer all questions.

Use blue or black ink.

The skills of knowledge and understanding (KU) and analysis, evaluation and application (A,E,App) are being assessed in this paper. When answering each question you should note the number of marks allocated to each skill and use this information as a guide to the length and type of answers required.

Before leaving the examination room you must give this book to the Invigilator. If you do not you may lose all the marks for this paper.

**Section A—Sociology and Psychology**

1. Which of the following statements relate to sociology and which relate to psychology? Tick (✓) the correct boxes.

	Psychology	Sociology		
The way our extended family influences our behaviour.	<input type="checkbox"/>	<input type="checkbox"/>		
The way our behaviour is influenced by our personality.	<input type="checkbox"/>	<input type="checkbox"/>		
The culture we experience as we grow up.	<input type="checkbox"/>	<input type="checkbox"/>		
The influence media has on our behaviour.	<input type="checkbox"/>	<input type="checkbox"/>	<b>4</b>	<b>KU</b>

2. Why is it important for a care worker to have an understanding of psychology?

---

---

---

---

---

---

---

---

---

---

**4 KU**

Read the case study below and answer the questions that follow.

Nicole is 47 years old and has just discovered she is pregnant with her first baby. She is very excited as she thought she would never have any children. Her husband is concerned about how the pregnancy will affect her health.

3. (a) Identify **two** strands of Nicole's development that will be affected by the pregnancy.

---

---

---

---

2 KU

- (b) Describe how each of the two identified strands will be affected.

---

---

---

---

---

---

---

---

---

---

4 App

[Turn over

4. Explain **one** behavioural change that might happen as a result of Nicole becoming a parent at the age of 47.

---

---

---

---

2 AE

The following questions do not relate to the case study.

5. Describe what is meant by the term culture.

---

---

---

---

2 KU

6. Give **one** reason why a knowledge of different cultures is important for care workers.

---

---

---

---

2 KU

**Total (20)**

**Section B—Health and Safety**

Marks Code

AE

**Total (20)**

**[Turn over for Section C on Page eight**

**Section C—Values and Principles**

1. Describe the difference between a need and a want.

---

---

---

---

2 KU

Read the case study below and answer the questions that follow.

Wayne is 17 years old and has just been diagnosed as having epilepsy. He has accepted a place at university and has been learning to drive. His doctor has prescribed medication for his condition and has informed him that he cannot drive at present.

Wayne’s friends have stopped texting to ask him out. He is scared that he is being treated differently because of his epilepsy.

2. Describe **one** emotional need and **one** physical need that has changed for Wayne since his diagnosis.

---

---

---

---

2 KU/  
2 App

3. What is meant by the term discrimination?

---

---

---

---

2 KU

4. Describe **two** possible effects of discrimination on Wayne.

---

---

---

---

---

---

---

---

---

---

4 App

5. State **three** qualities that the specialist nurse for epilepsy should demonstrate when working with Wayne.

---

---

---

---

---

---

---

---

3 KU
