

SFLSCM132 – SQA Unit Code J2LT 04

Monitor the transportation of supplies

Overview

This standard is about monitoring the transportation of supplies. It involves collating and analysing information with regard to the transportation of supplies. It also involves identifying problems, providing results of analysis, and making recommendations with regard to the transportation of supplies.

This standard is for supply chain practitioners. This could be, for example, in purchasing, freight logistics operations or transport management roles.

SFLSCM132 – SQA Unit Code J2LT 04

Monitor the transportation of supplies

Performance criteria
