

SFLSCM127 – SQA Unit Code J2LW 04

Monitor the flow of supplies in the supply chain

Overview

This standard is about monitoring the flow of supplies in the supply chain. It involves collating and analysing information with regard to the flow of supplies. It also involves identifying problems, providing results of analysis, and making recommendations with regard to the flow of supplies.

This standard is for supply chain practitioners. This could, for example, be in purchasing, freight logistics operations or transport management roles.

SFLSCM127 – SQA Unit Code J2LW 04
