

# Practical Electronics

## The Qualifications Team

**Robbie Paterson**

Qualifications Manager

**Scott Durkin**

Qualifications Officer

## Diet 2019

### Course reports

Please read the annual course report for National 5 Practical Electronics. We produce these reports following the exam diet and they provide information on how candidates performed in course assessment for National Qualifications.

Course reports include a summary of areas candidates performed well in and areas candidates found demanding. They also contain advice on preparing candidates for future assessment, and statistical data relating to grade boundaries. The course report is available from the [subject level page](#) of our website.

## Information and guidance

### Understanding standards

We are currently developing a new Understanding Standards resource for the National 5 practical activity. This resource will support assessors and internal verifiers to interpret and apply the marking instructions. Given the recommended iterative marking process for the practical activity, this resource will be split into manageable sections, that you can access as and when required.

## Approval

Centres need to apply for approval before delivering National 5 Practical Electronics for the first time.

You can find more information under the 'Information about obtaining approval' heading on the [National 5 Practical Electronics page](#) of our website.

## Appointee opportunities

We are currently inviting applications for the following appointee roles:

[Item Writer — Practical Electronics: National 5](#)

[Visiting Verifier — Practical Electronics](#)

If you are interested and meet the role criteria, you can apply via the links provided.
