

# Questions & Answers

## Preparing assessment materials webinar

### **Can the slides and commentary be shared with colleagues via our local authority teams page?**

Yes, as the recording will be published on the Understanding Standards website, which is an open site.

### **Does a centre have to produce their own prelim exam?**

It is a centre decision whether or not they wish to hold prelims. There is no expectation / requirement from us to do so. If you do choose to hold prelim exams, then again, it is up to you whether you produce a prelim for your own centre, or whether one is produced collaboratively.

### **The presentation did not mention how to gather evidence for assignments or practical activities – do we still have to do these?**

The webinar was based on production of question paper evidence only. SQA have published guidance documents on gathering key evidence for estimates of all components. This guidance can be found on each subject page on the open SQA website
