

Control Fish Gutting Operations

Unit Summary

This Unit is about gutting fish by machine. It details the skills required to start up, run and shut down gutting equipment, as well as being able to take the appropriate action should operating problems occur. It is also about working to organisational product specifications and production schedules.

This Unit is for you if you control fish gutting operations.

In order to be assessed as competent you must demonstrate to your assessor that you can consistently perform to the requirements set out below. Your performance evidence must include at least one observation by your assessors in your work place or work placement.

Achievement of this Unit will provide you with opportunities to develop the following SQA Core Skills:

Communication Access 3

• Produce simple written communication

Problem Solving Intermediate 1

- Analyse a straightforward situation or issue
- Plan, organise and complete a straightforward task
- Review and evaluate a straightforward problem solving activity

I have completed the requirements of this Unit.
