

Arrangements for:
Higher National Certificate in Business
(G9ML 15)

Higher National Diploma in Business
(G9MM 16)

Validation date: March 2010

Date of original publication: April 2010

Version: 36 (July 2020)

Acknowledgement

SQA acknowledges the valuable contribution that Scotland's colleges have made to the development of Higher National qualifications.

History of changes

It is anticipated that changes will take place during the life of the qualification and this section will record these changes. This document is the latest version and incorporates the changes summarised below. Centres are advised to check SQA's APS Navigator to confirm they are using the up to date qualification structure.

NOTE: Where a Unit is revised by another Unit:

- ◆ No new centres may be approved to offer the Unit which has been revised.
- ◆ Centres should only enter candidates for the Unit which has been revised where they are expected to complete the Unit before its finish date.

1 Introduction

This is the Arrangements Document for the revised Group Award(s) in HNC Business and Information Technology and HND Business validated in January 2010. This document includes background information on the revision of the Group Award, its aims, guidance on access, details of the Group Award structure, and guidance on delivery.

These Group Awards replace HNC Business (G7D9 15) and HND Business (G7DA 16)

2 Rationale for the revision of the Group Award(s)

The HNC/D Business awards were reviewed in 2003 to replace the HNC/D Business Administration Awards. They were first delivered by centres in 2004, and by late 2007 became subject to SQA's regular cycle of quintennial review. These Group Awards have consistently featured in the top ten SQA HNs in terms of candidate numbers over the past five years.

The HNC and HND Business Group Awards are designed to equip candidates with the knowledge, understanding and skills required for success in current and future employment or for progression to further academic and/or professional qualifications.

2.1 Market research, consultation and development process

The review of the awards began in November 2007, when centres were issued with a 'Looking Forward' questionnaire. This asked them to consider — the scale of review required; the structure and titles of the awards; the balance of Units between the mandatory and optional sections; the content of the awards and any gaps; the structure of the Graded Units and assessment conditions.

Feedback received in response to this questionnaire established the parameters of the review. The clear preference was for a limited review, rather than a wholesale change to the awards.

A Qualification Review Team (QRT) was then appointed from a number of active centres with, in addition to the above, a specific remit to:

- ◆ Reduce assessment load
- ◆ Better exemplify standards
- ◆ Increase flexibility of assessment
- ◆ Ensure compliance with the Disability Discrimination Act
- ◆ Ensure Units are aligned to the refreshed Core Skills framework
- ◆ Improve guidance on Core Skills

Three particular areas of concern were also identified from the initial consultation and ongoing feedback over the life of the awards:

- ◆ Mandatory Units — review and update to ensure fit for purpose and relevant.
- ◆ IT provision — focus content and remove unnecessary duplication.
- ◆ Graded Units — review and update to address problems with accessibility and manageability.

Some of the specific actions to meet the above criteria were identified by the QRT as follows:

- ◆ Make Evidence Requirements and Assessment conditions more flexible and less prescriptive
- ◆ More clearly define Knowledge, Skills and Evidence Requirements within the Unit specifications to reduce emphasis on Assessment Exemplars
- ◆ Replace the Unit *Using Software Applications Packages* with *IT in Business: Spreadsheets*
- ◆ Update Graded Unit 1 to address issues of manageability
- ◆ Revise Graded Unit 2 as a two credit project investigation therefore removing the Graded Unit 3 examination.

All of the actions identified above were put to consultation with centres at the 2008 Network Event and were strongly supported. Prior to the event, SQA and the QRT had received feedback to suggest that the content of Graded Unit 2 was too onerous for a single credit Unit, therefore the options put to centres were: to maintain the current single credit Graded Unit 2 project and revise to reduce content; or to increase to a two credit project and drop the Graded Unit 3 examination. Centres supported the latter option.

In the interests of having a more manageable and efficient Group Award framework the QRT put a proposal to centres that Optional Units with less than 50 entries since 2004 would not be included within the new HNC/D structures. Centres were then given an opportunity at the November 2009 Network Event to comment, make a case for the retention of any Units within this category and to suggest new Units which could be included. The final validated frameworks took full cognisance of this process.

The following table summarises the the consultation methods employed by the QRT:

Stakeholder	Method of Consultation
Centres	<ul style="list-style-type: none"> ◆ Survey ◆ Network Meetings ◆ E-mail
Employers	<ul style="list-style-type: none"> ◆ Survey ◆ E-mail
Higher Education Institutions	<ul style="list-style-type: none"> ◆ Survey ◆ E-mail ◆ Telephone
Professional Bodies	<ul style="list-style-type: none"> ◆ Telephone ◆ E-mail

3 Aims of the Group Awards

The main aims of the HNC and HND Business Awards are to enable candidates to acquire the skills and knowledge needed to progress to a higher level of their study in the Business subject area, or take an exit route into related employment within a business environment.

3.1 General aims of the Group Awards

The general aims for these Awards are to:

- 1 develop candidates' knowledge and skills required for employment in a business environment
- 2 enable progression within the SCQF framework
- 3 develop study and research skills
- 4 develop transferable skills including Core Skills to the levels demanded by employers
- 5 enable a sound articulation route to the HND Business and Higher education
- 6 prepare candidates for progression to further studies

3.2 Specific aims of the Group Award(s)

3.2.1 Aims of the HNC

The specific aims of HNC Business are to:

- 1 enable candidates to enter a range of administrative, commercial or managerial positions in organisations
- 2 develop suitable competencies to enhance an administrative, commercial or managerial career on which they have already embarked
- 3 enable candidates to progress within the SCQF framework and to further professional, academic or vocational qualifications
- 4 develop candidate competencies in a range of specialist areas of their choice in line with their preferred career pattern
- 5 provide a basis for future career and personal development
- 6 develop and enhance transferable skills
- 7 adopt an innovative and creative approach to their work and be able to respond quickly to the challenges posed by changes in the business environment
- 8 develop and apply a range of vocational knowledge and skills in an integrated manner to the analysis of business situations
- 9 develop a global understanding of business, marketing and consumer issues

3.2.2 Aims specific to the HND

An HND in Business will provide a breadth of competences. The HND will extend the range of competences covered in the HNC. The specific aims of HND Business are to:

- 1 enable candidates to consider and revisit core business issues and develop a depth of understanding from a managerial perspective
- 2 further develop organisational and investigative skills
- 3 promote the development of transferable skills in planning, organisational and evaluation and enable the candidate to investigate business issues and problems in depth
- 4 provide an advanced entry point to an organisation
- 5 facilitate speed of progression within an organisation
- 6 promote advanced level of entry to further academic or professional qualification
- 7 develop the underpinning knowledge which supports SVQs

3.2.3 Relationship of the Mandatory Units to the Aims of HNC and HND

The aims of the Awards are met within the mandatory Units. Two tables, one for the HNC and one for the HND, illustrating where the individual aims are met within each Unit are provided in **Appendix 1**.

3.3 Target groups

HNC or HND Business Awards are designed for candidates who wish to pursue a career in business but do not wish to commit themselves to a specialist area at the outset. They are suitable for wide range of candidates including:

- ◆ school leavers
- ◆ adult returners to education
- ◆ those in employment who wish to enhance their career prospects
- ◆ those who are, or wish to be, self-employed and require a broad grounding in business

Both the HNC and HND Business enable candidates to progress to further academic and professional qualifications before embarking on an administrative, managerial or commercial career. Increasingly, candidates are able to articulate to higher education institutions (HEIs) after HNC Business rather than having to complete the HND, therefore the aim of providing articulation to further study is becoming increasingly important. An indication of HEI's requirements in relation to articulation to degree programmes is provided in **Appendix 5**.

3.4 Employment opportunities

HNC and HND Business will prepare candidates for entry to a wide range of positions. Respondents to employer consultation named the following as posts for which HN Business graduates would typically be recruited:

- ◆ Administrative Officer
- ◆ Administration Supervisor
- ◆ Assistant Manager
- ◆ Banking Advisor
- ◆ Business Development Assistant
- ◆ Business Manager
- ◆ Customer Service Coordinator
- ◆ Finance Assistant
- ◆ Manufacturing Distribution
- ◆ Office Manager
- ◆ Personal Assistant
- ◆ Planning Officer
- ◆ Purchasing Officer
- ◆ Sales Co-ordinator
- ◆ Team Leader
- ◆ Trainee Manager

The HND has a strong managerial focus which enables candidates to progress more quickly to supervisory/management roles. In addition, HND candidates, through their choice of options, will be able to prepare for a career (or further studies) in a number of specialist areas, for example, Human Resource Management, Marketing, and Financial Services.

4 Access to the Group Awards

Access to HNC/D Business is at the discretion of the centre. The following recommendations are for guidance only. Examples of appropriate qualifications entry are not exhaustive and may be considered in a variety of combinations. The over-riding criterion to be satisfied is that the applicant has a realistic chance of achieving the qualification within the programme model delivered by the centre.

4.1 Formal qualifications

- ◆ NC Business at SCQF level 5
- ◆ Business Management Higher (SCQF level 6)
- ◆ Relevant National Qualifications or National Qualification Group Awards at SCQF level 5 or 6
- ◆ Any two National Qualifications at Higher level together with three Standard Grade passes at 3 or above.
- ◆ An SVQ at level 2 or 3 in a relevant area
- ◆ Different combinations of National Qualifications, Vocational Qualifications and equivalent qualifications from other awarding bodies
- ◆ Relevant work experience
- ◆ Good communication and analytical skills
- ◆ For candidates where English is not their first language, it is recommended that they possess English for Speakers of Other languages (ESOL) at SCQF level 5 or an overall score of 5.5 in IELTS.

The structure of NC Business at SCQF level 5 allows centres to design their programmes to include up to four credits at SCQF level 6 by selecting appropriate Units from the optional section. Centres may wish to consider this model if using the NC Business as a means of providing a smooth progression to HNC/D Business.

4.2 Work experience

Those with relevant work experience may be accepted for entry if the enrolling centre is satisfied that the candidate has a reasonable expectation of successfully completing the qualification. This may be established through a written application, face-to-face interview or other means as deemed appropriate by the centre.

4.3 Entry to Year 2 HND

In order to achieve the HND Business candidates must gain a total of 30 HN Credits from the appropriate parts of the qualification structure. Access to HND typically varies between a requirement to have a minimum of between 12 and 15 credits, usually including all of the HNC Business mandatory Units.

4.4 Recommended Core Skills Entry Profile

It is recommended that candidates possess the following minimum Core Skills or equivalent on entry to the HNC or HND Business Group Awards.

Core Skill or component	SCQF level
Communication	5
Numeracy	5
Information and Communication Technology	4
Problem Solving	4
Working with Others	4

5 Group Award structures

5.1 Structure of HNC

Candidates will be awarded an HNC in Business on successful completion of all of the Units and the Graded Unit in the mandatory section, and an appropriate combination of optional Units up to a total of 96 SCQF credit points. The HN Design Principles require an HNC Group Award to incorporate at least 48 SCQF credit points at SCQF level 7.

The HNC Business mandatory section comprises 80 SCQF credit points at SCQF level 7. Candidates must complete an additional 16 SCQF credit points from the optional section and there are no restrictions on the SCQF level from which to draw these credit points.

This equates to 10 HN credits from the mandatory and 2 HN credits from options.

The framework (on following pages) illustrates the composition of the mandatory and optional parts of the award, and the credit value and level of each Unit.

FRAMEWORK**HNC BUSINESS****G9ML 15****Mandatory Units****STRUCTURE: 12 HN credits needed****Mandatory: 10 HN credits needed**

12 HN credits
96 SCQF credits
(A minimum of 80 SCQF credits at SCQF level 7)

5.2 Structure of the HND

Candidates will be awarded an HND in Business on successful achievement of all of the Units and the Graded Units in the mandatory section and an appropriate combination of Optional Units up to a total of 240 SCQF credit points. The HN Design Principles require an HND Group Award to incorporate at least 64 SCQF credit points at SCQF level 8.

The HND Business mandatory Units comprise 88 SCQF credit points at SCQF level 8 and 96 SCQF credit points at SCQF level 7. Candidates must complete a further 56 SCQF credit points from the optional section and there are no restrictions on the SCQF level from which to draw these credit points.

This equates to 23 HN credits from the mandatory section and 7 HN credits from the options.

The qualification framework (on following pages) illustrates the composition of the mandatory and optional parts of the award, and the credit value and level of each Unit.

*Refer to History of Changes for revision changes.

Please note – the 12 credits from the HNC includes 2 credits from Optional Units. Centres should take care to ensure that these 2 credits are not double-counted when checking the remaining optional credits learners need to achieve the HND. The 5 optional credits referred to in the table above are in addition to those already achieved as part of the HNC. This means that when checking the optional Units on a learner's SQA record, 2 of these credits must be allocated to the HNC before counting optional credits towards the 5 needed from this section. Learners need a total of 7 optional credits and 30 overall to achieve the HND.

HND BUSINESS G9MM 16 – ROUTES TO CERTIFICATION

ROUTE 1 (Conventional)

2010 HND Business G9M8 16
23 Mandatory credits
7 Optional credits
30 Credits

ROUTE 2 (Candidate with HNC G79D 15)

2004 HNC Business G7D9 15	2010 HND Business G9MM 16 Year 2 Credits	2010 HND Business G9MM 16
10 Mandatory credits →	13 Mandatory credits →	23 Mandatory credits
2 Optional credits →	5 Optional credits →	7 Optional credits
12 Credits	18 Credits	30 Credits

5.3 Core Skills

The HNC and HND Business Awards provide a number of embedded Core Skills and a range of opportunities for the signposting and development of Core Skills. These opportunities are illustrated in the table in **Appendix 2**.

The reviewed specifications for Units within the Mandatory section have been updated in respect of Core Skill guidance. All revised Unit specifications within the mandatory section of the HNC and HND Business contain signposting of opportunities for the development or certification of Core Skills or Core Skill components.

5.3.1 Core Skills Exit Profile — HNC Business

Core Skill	Recommended Entry Profile	Certificated Exit Profile
Communication	SCQF level 5	SCQF level 6
Information and Communication Technology	SCQF level 5	SCQF level 6
Numeracy	SCQF level 4	SCQF level 5
		Using Number SCQF level 6
Problem Solving	SCQF level 4	Critical Thinking SCQF level 5
Working with Others	SCQF level 4	SCQF level 6*

*The Core Skill of *Working With Others* is not automatically certificated within the mandatory section of the HNC Group Award. However candidates completing *Developing the Individual Within a Team* at SCQF level 7 (F870 34) or SCQF level 8 (F86Y 35) as an optional Unit will be certificated for *Working with Others* at SCQF level 6. If either of these options are not selected, signposting opportunities exist within the mandatory Units — *Managing People and Organisations* (J4DL 34), *Communication: Analysing and Presenting Complex Communication* (DE3N 34) and *Marketing: An Introduction* (F7BX 34).

5.3.2 Core Skills Exit Profile — HND Business

Core Skill	Recommended Entry Profile	Certificated Exit Profile
Communication	SCQF level 5	SCQF level 6
Information and Communication Technology	SCQF level 5	SCQF level 6
Numeracy	SCQF level 5	SCQF level 6
Problem Solving	SCQF level 5	Critical Thinking SCQF level 5
Working with Others	SCQF level 5	SCQF level 6*

*The Core Skill of *Working With Others* is not automatically certificated within the mandatory section of the HND Group Award. However candidates completing *Developing the Individual Within a Team* at SCQF level 7 (F870 34) or SCQF level 8 (F86Y 35) as an optional Unit will be certificated for Working with Others at SCQF level 6. If either of these options are not selected, signposting opportunities exist within the mandatory Units — *Managing People and Organisations* (J4DL 34), *Communication: Analysing and Presenting Complex Communication* (DE3N 34), *Marketing: An Introduction* (F7BX 34), *Business Culture and Strategy* (F7J7 35), *Behavioural Skills for Business* (J1BW 35) *Information and Communication Technology in Business* (F84W 35) and *Business: Graded Unit 2* (F8LE 35).

5.3.3 Opportunities to develop the Core Skill *Working with Others*

Whilst opportunities to develop the *Working with Others* Core Skill are not explicitly identified within the mandatory Units 2, there are Units where this Core Skill could be developed through appropriate delivery models. Several Units lend themselves to teaching and learning approaches that involve the development of *Working With Others* at SCQF level 6. These Units are:

Managing People and Organisations (J4DL 34)

Opportunities are available for the development of co-operative working. Candidates may work in small groups when analysing case studies before presenting their ideas to the whole group. Candidates may take part in team games to reinforce the theoretical points underlying the principles of team work. This will also involve reflection upon their performance during team based activities.

Communication: Analysing and Presenting Complex Communication (DE3N 34)

In Outcome 2 candidates may work co-operatively as a group in researching an issue to provide a context for the achievement of this outcome. In Outcome 3 candidates will work co-operatively with others in planning and taking part in a formal group meeting. Candidates are required to present agenda items to others and respond to the contribution of others.

Marketing: An Introduction (F7BX 34)

This Unit provides opportunities for the use of collaborative learning and group discussion in applying marketing theory to case study scenarios.

Business Culture and Strategy (F7J7 35)

During this Unit candidates will develop skills in working co-operatively with others during group discussions. Candidates may work collaboratively in researching topics and presenting their findings to others. Candidates may analyse case studies in small groups before presenting their ideas others.

Behavioural Skills for Business (J1BW 35)

Several opportunities are available for working co-operatively within this Unit. Group discussions and role play may be used to reinforce management behaviour involving assertiveness skills, influencing strategies, negotiation strategies, meetings and briefings and conflict management. Management games may be appropriate to encourage the use of these skills in a group scenario. Candidates may also be asked to reflect on and review their contribution during these activities. Candidates may engage in group discussion when analysing case studies and make group decisions on recommendations.

Information and Communication Technology in Business (F84W 35)

Candidates may carry out a group presentation to present their findings on new technological innovations and their use of presentation software. Peer review and self evaluation may be used to evaluate the contribution of self and others to the group presentation.

5.4 Relationship to National Occupational Standards

Whilst there are no National Occupational Standards (NOS) which encapsulate the knowledge, skills and competences within the HNC and HND Business Awards, there are various NOS suites which are relevant. Units such as *Business Accounting (F84M 34)*, *Preparing Financial Forecasts (F84R 35)*, *Managing People and Organisations (J4DL 34)*, *Behavioural Skills for Business (J1BW 35)*, *Marketing: An Introduction (F7BX 34)* and *Information and Communication Technology in Business (F84W 35)* have content which may be signposted against Accounting NOS (FSSC), Management NOS (CMI), Business Enterprise NOS (SFEDI), and Business and Administration NOS (CfA).

5.5 Credit Transfer

Where candidates have completed individual Units from the predecessor frameworks, they can be given credit transfer on a Unit by Unit basis. Credit transfer can be given where there is broad equivalence between the subject-related content of the Units, ie the Knowledge and/or Skills have not changed significantly, or are covered in the Unit for which credit is being awarded. **Appendix 3** sets out the credit transfer arrangements on a Unit by Unit basis.

5.6 Transition Arrangements from HNC Business to HND Business

The revised HND Business framework includes a route to allow candidates completing the predecessor HNC Business (G7D9 15) to transfer the full 12 credits of that award to the revised HND Business (G9MM 16). Details of this route are available in Section 5.2 Structure of the HND. As the aims and content of the new and old Group Awards are broadly the same, this will not negatively affect the integrity of the revised HND but will greatly enhance the manageability of transitional arrangements from HNC to HND Business.

Therefore when transferring from the predecessor HNC to the new HND, centres and candidates will have the following options:

Candidates who have been certificated for the HNC Business (G7D9 15) Group Award will be able to move to the new HND Business, carrying forward the 12 credits gained through the HNC without the need for a Unit-by-Unit credit transfer mapping.

Where candidates have partially completed the HNC Business (G7D9 15) via a number of discrete Units, credit transfer will need to be agreed on a Unit-by-Unit basis.

Where candidates have partially completed the HND Business (G7DA 16) via a number of discrete Units, credit transfer will need to be agreed on a Unit-by-Unit basis.

Guidance on Unit-by-Unit credit transfer is available within **Appendix 3**. This guidance is subject to centre's internal verification processes.

5.7 Articulation and professional recognition

5.7.1 Other SQA qualifications

Within the current HNC/D framework, links exist with a number of Professional Development Awards (PDAs) in the Administration and Business subject area. It is SQA's intention to update the relevant PDA frameworks in line with the amendments to common Units within HNC/D Administration and Information Technology and Business Group Awards. Examples of relevant PDAs include:

- ◆ PDA IT in Business (SCQF level 7)
- ◆ PDA Office Administration (SCQF level 7)
- ◆ PDA Administrative Management (SCQF level 8)
- ◆ PDA Office Management and IT (SCQF level 8)
- ◆ PDA Book-keeping (SCQF level 7)
- ◆ PDA Management Accounting (SCQF level 7)
- ◆ PDA Financial Accounting (SCQF level 7)

5.7.2 Higher Education

Articulation arrangements exist between a number of Scottish Universities and the Open University where HNC/D awards will be accepted as entry to either first or second year of a Business, Management or ICT related degree. Depending on the specific degree programme, certain Units may be required as part of the HNC/D course content. The Optional section of the HNC/D framework is sufficiently broad to ensure that centres are able to comply with reasonable articulation requests. A high proportion of candidates have articulated to degree programmes on completion of an HNC or HND in Business and this trend is expected to continue.

5.7.3 Professional Bodies

Chartered Management Institute (CMI)

Graduates are eligible for Associate Grade membership. For more information see <https://www.managers.org.uk/individuals/become-a-member>

Chartered Banker Institute (CBI)

HNC graduates are eligible for entry into the Institute's *Professional Banker Diploma* and HND graduates are eligible for entry into the Institute's *Chartered Banker Diploma (ACBD)*. For more information see <https://www.charteredbanker.com/>

The Chartered Institute of Management Accountants (CIMA) have confirmed that graduates of HNC and HND Business between 2016 and 2019 (HNC)/2020 (HND) will be entitled to exemptions from up to three of the four exams in the CIMA Certificate in Business Accounting. The precise number of exemptions depends on the optional units completed by the learner as illustrated in the table below.

CIMA Subject name	CIMA Subject level	SQA Unit(s) required for Exemption 2016-2020 completion
C01 / BA2 Fundamentals of Management Accounting	Certificate	Core: F84M34 Business Accounting AND F84R35 Preparing Financial Forecasts AND F84V34 IT in Business: Spreadsheets AND Option: F7JS34 Management Accounting using Information Technology
C02 / BA3 Fundamentals of Financial Accounting	Certificate	Core: F84M34 Business Accounting AND Option: F7JP34 Using Financial Accounting Software

C03 Fundamentals of Business Mathematics	Certificate	(Recommended) Optional: F84K35 Statistics for Business Students can choose to waive the C03 exam therefore it is recommend they ensure they have a sound knowledge of business mathematics. The content is being redistributed under the 2017 syllabus to BA1, BA2 and BA3
C04 / BA1 Fundamentals of Business Economics	Certificate	Core: F7J834 Economic Issues: An Introduction
C05 / BA4 Fundamentals of Ethics, Corporate Governance and Business Law	Certificate	Optional: F84N34 Business Contractual Relationships AND F84P43 Business Law: An Introduction

6 Approaches to delivery and assessment

6.1 Delivery

Suggested delivery schedules have been included in **Appendix 4** but the choice of delivery pattern is at the discretion of the Centre. It is anticipated that centres will ensure that as much of the relevant mandatory content as possible is covered prior to commencing delivery of the Graded Unit.

Centres should ensure that when planning a course delivery programme, it reflects the needs and requirements of the candidates. Centres will be able to customise course programmes through the optional section of the framework but should, wherever possible, develop delivery schedules that enable candidates to build on knowledge and understanding and gain a holistic view of business.

The qualifications can be delivered in a number of ways:

- ◆ Full-time
- ◆ Full-time fast track
- ◆ Day release
- ◆ Part-time evening
- ◆ Open Learning

A combination of these modes can also be used. For example, candidates may wish to study on a half-day/one evening basis or combine evening, or day release study with some open learning provision. Such combined mode study may enable candidates to complete the awards within a shorter time period, for example it is possible to devise a combined mode programme to allow part-time students (who currently have a 12 credit HNC) to complete all the required credits for the HND award in two years. For both the HNC and HND Group Award a similar approach can be used. However given that the HND Group Award contains several Units at SCQF level 8, greater emphasis is placed on candidates working unsupervised in order to develop their analytical and research skills; therefore delivery and teaching should reflect this.

A wide range and combination of teaching, learning and assessment methods may be used by centres. The following suggested delivery methods could be adopted by centres:

- ◆ lecturers
- ◆ tutorials
- ◆ study packs
- ◆ problem based scenarios
- ◆ case studies
- ◆ group work
- ◆ online materials
- ◆ IT based teaching materials
- ◆ projects
- ◆ Virtual Learning Environments

Unit specifications set out the statements of standards required for achieving the Unit, along with guidance on content and assessment. Assessment Exemplars will be available for all of the mandatory Units. Assessment Exemplars may be used to assess candidates and should be kept secure at all times. Should centres wish to alter Assessment Exemplars or use different instruments of assessment, particularly where a Core Skill is embedded, it is recommended that they should seek prior verification before using such instruments.

The Evidence Requirements within the mandatory Units focus on the knowledge/skills that candidates should perform/use and the assessment conditions are not prescribed in the majority of the Units. This means that there is much more flexibility as to when and how the evidence is gathered thereby reducing the possibility of assessing similar evidence on more than one occasion.

Throughout delivery, candidates should be set clear standards in terms of presentation of information. It is recommended that candidates use standard referencing conventions such as Harvard Referencing system throughout so they are confident about using wider evidence in support of a business or academic report and ensuring compliance with copyright and avoiding issues of plagiarism.

6.2 Graded Units

All Graded Unit specifications are available from SQA's website (www.sqa.org.uk).

The purpose of the Graded Units is to assess the candidate's ability to retain and integrate the knowledge and skills gained in the mandatory Units; to assess that the candidate has met the principal aims of the Group Award and to grade the candidate's achievement. A Graded Unit is assessed and a grade of A, B or C awarded to candidates who successfully achieve the Unit.

Candidates will take a one credit Graded Unit at SCQF level 7 in the HNC/1st year HND, and a further two credit Graded Unit at SCQF level 8 in the second year of the HND Group Award.

The Graded Units take the form of:

- ◆ Business: Graded Unit 1 (F8LD 34) Examination at SCQF level 7
- ◆ Business: Graded Unit 2: (F8LE 35) Project Investigation at SCQF level 8

Business: Graded Unit 1 (F8LD 34) is a closed-book examination lasting three hours comprising two papers worth 40% and 60% of the marks respectively. This Unit covers the integration of a range of knowledge and skills achieved through study of the mandatory Units, but focusing on *Business Accounting* (F84M 34), *Economic Issues: An Introduction* (F7J8 34), *Managing People and Organisations* (J4DL 34) and *Marketing: An Introduction* (F7BX 34).

This assessment should take place towards the end of the programme to ensure that candidates have covered the topics which will be assessed within the Graded Unit.

Business: Graded Unit 2 (F8LE 35) is a project investigation to be completed on an open-book basis over a period of time. This Unit covers the integration of a range of knowledge and skills achieved throughout the mandatory Units of the HND, ie *Business Accounting* (F84M 34), *Preparing Financial Forecasts* (F84R 35), *Economic Issues: An Introduction* (F7J8 34), *Economics 1: Micro and Macro Theory and Application* (F7J6 35), *Economics 2: The World Economy* (F86E 35), *Marketing: An Introduction* (F7BX 34), *Managing People and Organisations* (J4DL 34), *Business Culture and Strategy* (F7J7 35), *Information and Communication Technology in Business* (F84W 35), *Information Technology: Applications Software 1* (D75X 34), *IT in Business: Spreadsheets* (F84V 34), *Communication: Analysing and Presenting Complex Communication* (DE3N 34), *Behavioural Skills for Business* (J1BW 35), *Business Law: An Introduction* (F84P 34), *Business Contractual Relationships* (F84N 34) and *Statistics for Business* (F84K 35)

In addition to the integration of knowledge and skills needed to complete the project investigation, candidates will develop their skills in planning, negotiation, research, analysis, time management and problem solving. The Core Skill of *Problem Solving* at SCQF level 6 is embedded and therefore automatically certificated on successful completion of the Unit.

The Planning stage of the project is worth 24% of the overall mark, the developing stage 52% and the evaluation stage 24%. A pass mark of 50% for each stage is required to achieve the overall Unit.

6.2.1 Business: Graded Unit 1 Examination

Business: Graded Unit 1 (F8LD 34) is assessed through an examination based upon a seen case study. The Unit is effectively the examination of four primary areas of business and is best served by consistent allocation to each subject area, not on the basis of credit values of the Units of recommended entry (see 6.3).

Delivery and support are key issues, not just in terms of the Graded Unit itself, but through a holistic approach to the constituent Units. There is a risk that if Graded Unit 1 is delivered in isolation, it will be the first time concepts have been addressed if their relevance to the Graded Unit has not been highlighted within the other mandatory Units. There should be substantial scope to prepare candidates for Graded Unit 1 from the outset of delivery, rather than commencing only when delivery of the Unit itself begins.

6.2.2 Business: Graded Unit 2 Project Investigation

The project investigation promotes the skills of planning, negotiation and evaluation within the context of a real or simulated business issue or issues. It is important that candidates have a suitable foundation upon which to conduct a meaningful project. Delivery of the project in the HND second year ensures that candidates have a wide range of topics around which the project can be based and then linked to a real or fictitious organisation. In addition to the appropriate knowledge, the project investigation also requires planning and research skills, greater independent learning, the ability to solve problems and analyse information. The planning and evaluative nature of the project allows candidates to develop these higher level skills.

The project investigation provides the candidate with the opportunity to draw on concepts and issues that may arise out of the content of the mandatory section of the HND Business framework. Common topic areas extend from the study of Economics, Marketing, Management and Finance, with specific issues relating to Customer Care, Product Development, Market Development and externalities providing a focus for further investigation.

6.3 Open learning

The removal of closed book and supervised assessment conditions where not critical to competence has widened the scope for delivery via open learning. However evidence should still be generated under the assessment conditions stipulated within the Unit specification. This mode of delivery requires planning by the centre to ensure the authenticity of candidate evidence.

6.4 E-Learning

Centres are encouraged to use new technologies to support and enhance the delivery and assessment of the HNC/D Business Group Awards. Formative E-assessment material is in development at the time of writing (March 2010). More information about online resources available via SQA's SOLAR project can be found at the website — www.sqasolar.org.uk

6.5 Resources

Centres will require ICT facilities for the delivery and assessment of the Units *IT in Business: Spreadsheets* (F84V 34), *IT Applications Software 1* (D75X 35) and *Information and Communication Technology in Business* (F84W 35). Centres should keep up-to-date with developments in legislation and business practices relevant to the knowledge and skills within the Group Awards.

7 General information for centres

Disabled candidates and/or those with additional support needs

The additional support needs of individual candidates should be taken into account when planning learning experiences, selecting assessment instruments, or considering whether any reasonable adjustments may be required. Further advice can be found on our website www.sqa.org.uk/assessmentarrangements.

Internal and external verification

All instruments of assessment used within this/these Group Award(s) should be internally verified, using the appropriate policy within the centre and the guidelines set by SQA.

External verification will be carried out by SQA to ensure that internal assessment is within the national guidelines for these qualifications.

Further information on internal and external verification can be found in *SQA's Guide to Assessment and Quality Assurance for Colleges of Further Education* (www.sqa.org.uk).

8 General information for candidates

The HNC and HND Business Awards are designed to enable you to develop the skills and knowledge that will facilitate your entry to and development within the world of business. They will enable you to acquire skills and knowledge in key business functions such as Management, Marketing, and Finance as well as helping you enhance relevant knowledge and skills in Economics, Communication, Problem Solving and Information and Communication Technology. The HND also addresses the fundamental legal knowledge required to operate in a business context.

The HNC and HND in Business will provide a platform allowing you to progress to employment or further study at an equivalent or higher level. They cover a range of subject topics which are relevant to modern business practices and to university degree programmes.

The HNC Business is an SCQF level 7 qualification which contains 12 HN credits (96 SCQF credit points), 10 of which are mandatory and 2 which are gained from optional Units. The HND Business is an SCQF level 8 qualification which contains 30 HN credits (240 SCQF credit points), 23 of which are mandatory with 7 to be obtained from optional Units. The 12 credits within the HNC also contribute to the HND. Some Units are worth 2 HN credits (rather than 1) so the number of Units you will be required to complete will not be the same as the overall number of HN credits required.

You will be assessed throughout the HNC or HND qualification on a Unit by Unit basis, with assessments taking the form of practical assignments, classroom assessment and case studies.

Towards the end of the HNC (or 1st year of the HND) you will undertake a Graded Unit (Business: Graded Unit 1), which is designed to assess your ability to integrate the knowledge and skills gained across the mandatory Units. *Business: Graded Unit 1* is a one credit Unit which provides the opportunity to reflect on the main topics covered within the other Units and how these link together. Assessment of Business: Graded Unit 1 will take the form of a closed-book examination at SCQF level 7 based on questions on a seen case study.

The HND requires candidates to complete a second Graded Unit (Business: Graded Unit 2) which will also assess your ability to integrate knowledge and skills gained across the breadth of the qualification. *Business: Graded Unit 2* is a two credit Unit which takes the form of a project investigation into a real or simulated business problem or issue. You will be required to pass the three stages of the project with a mark of at least 50% for each stage — Planning, Development and Evaluation.

On successful completion of each Graded Unit you will be awarded a grade of A, B or C according to the mark attained. This grading applies only to the relevant Graded Unit and not the overall HNC or HND award.

Grading is based on the marks attained as follows:

Grade A: 70–100%

Grade B: 60–69%

Grade C: 50–59%

9 Glossary of terms

SCQF: This stands for the Scottish Credit and Qualification Framework, which is a new way of speaking about qualifications and how they inter-relate. We use SCQF terminology throughout this guide to refer to credits and levels. For further information on the SCQF visit the SCQF website at www.scqf.org.uk

SCQF credit points: One HN credit is equivalent to 8 SCQF credit points. This applies to all HN Units, irrespective of their level.

SCQF levels: The Scottish Credit and Qualifications Framework (SCQF) covers 12 levels of learning. HN Units will normally be at levels 6–9. Graded Units will be at level 7 and 8.

Unit: Subject Units contain vocational/subject content and are designed to test a specific set of knowledge and skills.

Graded Unit: Graded Units assess each candidates' ability to integrate their learning across the different Units of the Group Award by assessing knowledge and skills from a number of Units. Their purpose is to add value to the Group Award, making it more than the sum of its parts, and to encourage candidates to retain and adapt their skills and knowledge.

Embedded Core Skills: This is where the development of a Core Skill is incorporated into the Unit and where the Evidence Requirements of the Unit also cover the requirements of Core Skill assessment at a particular level.

Signposted Core Skills: This refers to opportunities to develop a particular Core Skill at a specified level which are not entirely covered by the Evidence Requirements of the Unit and therefore are not automatically certificated.

Qualification Design/Review Team: Works in conjunction with a Qualification Manager/Officer to lead the development of an SQA Group Award from beginning through to validation. The team consists of key stakeholders representing the interests of centres, employers and other relevant organisations.

10 Appendices

- Appendix 1: Mapping of Mandatory Units to the Aims of the HNC and HND
- Appendix 2: Core Skills Certification and Signposting within Mandatory Units
- Appendix 3: Unit by Unit Credit Transfer Guidance
- Appendix 4: Suggested Delivery and Assessment Strategies
- Appendix 5: Higher Education Institution Consultation Responses

Appendix 1: Mapping of Mandatory Units to the Aims of the HNC and HND

Mapping of Mandatory Units to the Aims of the HNC

Unit Title	General Aims	Specific Aims
Business Accounting	1, 2, 4, 5, 6	7, 8, 9, 10, 11, 12, 14
Marketing: An Introduction	1, 2, 3, 4, 5, 6	7, 8, 9, 10, 11, 13, 14, 15
Economic Issues: An Introduction	1, 2, 4, 5, 6	7, 8, 9, 10, 11, 13, 14, 15
Communication: Analysing and Presenting Complex Information	1, 2, 3, 4, 5, 6	7, 8, 9, 11, 12
Managing People and Organisations	1, 2, 4, 5, 6	7, 8, 9, 10, 11, 13, 14
Information Technology: Applications Software 1	1, 2, 4, 5, 6	7, 8, 9, 11, 12, 13, 14
IT in Business: Spreadsheets	1, 2, 4, 5, 6	7, 8, 9, 11, 12, 13, 14
Business: Graded Unit 1	1, 2, 3, 4, 5, 6	7, 9, 12, 13, 14, 15

Mapping of the Mandatory Units to the Aims of the HND

Unit Title	General Aims	Specific Aims
Economics 1: Micro and Macro Issues	1, 2, 4, 5, 6	16, 18, 20, 21
Economics 2: The World Economy	1, 2, 3, 4, 5, 6	16, 17, 18, 20, 21
Information and Communication Technology in Business	1, 2, 3, 4, 5, 6	16, 17, 18, 19, 20, 21, 22
Business: Graded Unit 2	1, 2, 3, 4, 5, 6	16, 17, 18, 19, 21
Statistics for Business	1, 2, 3, 4, 5, 6	16, 17, 18, 21
Behavioural Skills for Business	1, 2, 4, 5, 6	16, 18, 20, 21, 22
Business Culture and Strategy	1, 2, 4, 5, 6	16, 18, 20, 21, 22
Business Law: An Introduction	1, 2, 5, 6	16, 21
Business Contractual Relationships	1, 2, 5, 6	16, 21
Preparing Financial Forecasts	1, 2, 4, 5, 6	16, 18, 21, 22

Appendix 3: Unit by Unit Credit Transfer Guidance

Old Unit	New Unit	Transfer Status
Business Accounting (DE39 34)	Business Accounting (F84M 34)	Full credit transfer
Economic Issues: An Introduction (DE3A 34)	Economic Issues: An Introduction (F7J8 34)	Full credit transfer
Marketing: An Introduction (DE3C 34)	Marketing: An Introduction (F7BX 34)	Full credit transfer
Managing People and Organisations (DE3D 34)	Managing People and Organisations (J4DL 34)	Full credit transfer
Information Technology: Applications Software 1 (D75X 34)	Information Technology: Applications Software 1 (D75X 34)	Full credit transfer
Using Software Application Packages (D85F 34)	IT in Business: Spreadsheets (F84V 34)	No automatic credit transfer
Communication: Analysing and Presenting Complex Information (DE3N 34)	Communication: Business Communication (H7TK 34)	Full credit transfer
Business Culture and Strategy (DE3X 35)	Business Culture and Strategy (F7J7 35)	Full credit transfer
Behavioural Skills for Business (F84L 35)	Behavioural Skills for Business (J1BW 35)	Full credit transfer
Business Law: An Introduction (DE3E 34)	Business Law: An Introduction (F84P 34)	Full credit transfer
Business Contractual Relationships (DN97 34)	Business Contractual Relationships (F84N 34)	Full credit transfer
Economics 1: Micro and Macro	Economics 1: Micro and Macro	Full credit

Theory and Application (DE3G 35)	Theory and Application (F7J6 35)	transfer
Economics 2: The World Economy (DE3H 35)	Economics 2: The World Economy (F86E 35)	Full credit transfer
Preparing Financial Forecasts (DE3J 35)	Preparing Financial Forecasts (F84R 35)	Full credit transfer
Information and Communication Technology in Business (DE3K 35)	Information and Communication Technology in Business (F84W 35)	Full credit transfer
Statistics for Business (DE3M 35)	Statistics for Business (F84K 35)	Full credit transfer
Business: Graded Unit 1 (DE3T 34)	Business: Graded Unit 1 F8LD 34)	Full credit transfer
Business: Graded Unit 2 (DE3V 35)	Business: Graded Unit 2 (F8LE 35)	No automatic credit transfer

Note — Credit Transfer is a decision for centres and can be given where there is broad equivalence between the subject-related content of the Units, ie the Knowledge and/or Skills have not changed, or are covered in the Unit for which credit is being awarded. Centres should give some consideration to currency of achievement when awarding credit transfer.

The guidance above has been written and vetted by SQA External Verifiers.

Appendix 4: Suggested Delivery and Assessment

Strategies

Two Semester Delivery Option

HNC Business (including HND year 1 options)

Semester One	Semester Two
Marketing: An Introduction	Business: Graded Unit 1
Economic Issues: An Introduction	Communication: AandP Complex Comm
Business Accounting	HNC Optional Unit
Business Accounting	IT in Business: Spreadsheets
Managing People and Organisations	HND Optional Unit
Managing People and Organisations	HND Optional Unit
IT Applications Software 1	HND Optional Unit
HNC Optional Unit	Business Law: An Introduction (HND)

HND Business (year 2)

Semester One	Semester Two
Business Culture and Strategy	Business Culture and Strategy
Behavioural Skills for Business	Business Contractual Relationships
ICT in Business	ICT in Business
Business: Graded Unit 2	Business: Graded Unit 2
Economics 1: Micro and Macro	Statistics for Business
Economics 2: The World Economy	Optional Unit
Preparing Financial Forecasts	Optional Unit
Optional Unit	

Three Block Delivery Option

HNC Business

Block One	Block Two	Block Three
Managing People and Organisations	Managing People and Organisations	Business: Graded Unit 1
Marketing: An Introduction	Economic Issues: An Introduction	Communication: Analysing and Presenting Complex Comm
IT Applications Software 1	IT in Business: Spreadsheets	Business Law: An Introduction

ICT in Business	ICT in Business	Statistics for Business
Optional Unit	Business: Graded Unit 2	Business: Graded Unit 2
Preparing Financial Forecasts	Economics 2: The World Economy	Optional Unit
Economics 1: Micro and Macro Theory and App	Optional Unit	Optional Unit

Assessment Strategy

HNC Assessment Strategy

The assessment strategy below provides suggestions for assessment rather than prescriptive direction.

Assessment	Units	Nature of integration	Additional comments
Simulated exercise	<i>Communication</i> <i>Business Accounting</i> <i>IT Applications Software 1</i> <i>IT in Business: Spreadsheets</i>	A meeting could be held to discuss financial performance of a business. The production of an accounting statement using, for example, spreadsheets could form the basis for an agenda item.	The emphasis is upon the development of skills that are applicable to a business environment. As a result, it is important to provide candidates with the opportunity to generate evidence through simulated business activity where possible. For example, candidate may participate in a business meeting, they may produce a profit and loss account for a business, they may produce business documentation to support business decision making.
Case Study with questions	<i>Managing People and Organisations</i> <i>Marketing: An Introduction</i> <i>Business: Graded Unit 1</i> <i>Economic Issues: An Introduction</i>	Opportunities may exist to use common case study stimulus material. This may provide candidates with a more holistic view of the nature of business and the internal and external environmental factors that impact upon it.	Candidates should be provided with the opportunity to generate evidence within the context of a real life or simulated business environment. This will enable candidates to apply knowledge and skills to business issues and challenges rather than merely regurgitating theoretical concepts.
Practical	<i>Communication:</i>	Opportunities may exist to generate	The generation of business documentation will provide

exercise	<i>AandP Complex Comm</i> <i>IT Applications Software 1</i> <i>IT in Business: Spreadsheets</i>	evidence through documentation that may satisfy different Units, for example, the production of a newsletter would promote integration between IT Applications Software 1 and Communication.	candidates with tangible, transferable skills that are consistently demanded by HEIs and employers.
----------	---	--	---

Assessment	Units	Nature of integration	Additional comments
Project: Practical Assignment	<i>Managing People and Organisations</i> <i>Economic Issues: An Introduction</i> <i>Marketing: An Introduction</i>	Opportunities may exist for candidates to generate evidence based upon a real life business organisation or situation and as such, candidates may have opportunities to integrate assessment evidence. For example, analysis of market conditions and management decision making may provide opportunities for integration.	The ability to generate evidence through project based assignments would provide the candidate with the opportunity to undertake independent research and development and would facilitate the development of planning, organisational and evaluation skills.

HND Year 2 Assessment Strategy

Assessment	Units	Nature of integration	Additional comments
Simulated exercise	<i>ICT in Business</i> <i>Statistics for Business</i> <i>Preparing Financial Forecasts</i>	Opportunities may exist to develop a simulated project with budgetary parameters that must be planned, agreed and analysed.	The emphasis is upon the development of skills that are applicable to a business environment. As a result, it is important to provide candidates with the opportunity to generate evidence through simulated business activity where possible.

Assessment	Units	Nature of integration	Additional comments
Case Study with questions	<i>Business Culture and Strategy</i> <i>ICT in Business</i> <i>Behavioural Skills for Business</i> <i>Economics 1: Micro and Macro Theory and App</i> <i>Business Law: An Introduction</i> <i>Business Contractual Relationships</i>	Opportunities may exist to use common case study stimulus material. This may provide candidates with a more holistic view of the nature of business and the internal and external environmental factors that impact upon it.	Candidates should be provided with the opportunity to generate evidence within the context of a real life or simulated business environment. This will enable candidates to apply knowledge and skills to business issues and challenges rather than merely regurgitating theoretical concepts.
Practical exercise	<i>ICT in Business</i> <i>Behavioural Skills for Business</i> <i>Preparing Financial Forecasts</i>	The planning, financial analysis and management of a project could provide the basis for the generation of evidence.	Providing candidates with an opportunity to carry out practical activities through, for example, experiential learning, will increase the transferability of learned skills and knowledge.

Assessment	Units	Nature of integration	Additional comments
Project: Practical Assignment	<i>ICT in Business</i> <i>Business Culture and Strategy</i> <i>Economics 2: The World Economy</i> <i>Business: Graded Unit 2</i> <i>Preparing Financial Forecasts</i>	Candidates may have an opportunity to generate evidence whilst working in partnership with a real life business organisation. A range of business activities and influences could be examined and evaluated.	The ability to generate evidence through project based assignments would provide the candidate with the opportunity to undertake independent research and development and would facilitate the development of planning, organisational and evaluation skills.
