

Assessment Strategy

For awarding bodies

Sector	Hair and Beauty
Qualification Title(s)	SVQ 3 in Hairdressing at SCQF level 6
Developed by	SkillsActive/Habia
Date approved by ACG	13 October 2021
Version	3

About Habia

Habia is the Sector Skills Body (SSB) and industry authority for hair, barbering, beauty, aesthetics, nails and spa therapy. Our role is to create the standards that form the basis of all qualifications in hair and beauty including SVQs, Apprenticeships and Foundation degrees, as well as industry codes of practice.

Habia is also part of the SkillsActive Group, licensed by the UK Government as the Sector Skills Council (SSC) for active sport, leisure and wellbeing including the sport, fitness, outdoor activities, play work, caravan and hair and beauty sectors.

Purpose of the assessment strategy

This Assessment Strategy has been produced by Habia in partnership with industry partners and awarding body partners to ensure the SVQ 3 in Hairdressing at SCQF Level 6 qualification, which has been developed after the approval of SkillsActive's review of the National Occupational Standards (NOS) for Hairdressing and Barbering (2014), has credibility in the industry. It outlines the principles and requirements to be applied to the assessment of knowledge, understanding, performance and competence for this qualification and its associated units.

The following sections outline Habia's industry specific principles in regard to:

- External quality control of assessment
- Workplace assessment, inclusive of the use of simulation
- Assessment of knowledge and understanding
- Occupational competence requirements for those involved in the assessment process

These principles are in addition to the requirements that awarding bodies must adhere to for the delivery of qualifications, as required by the relevant qualification regulators for Scotland (SQA Accreditation). Awarding bodies may specify additional requirements for Centres, as they consider necessary in order to enhance the principles and quality of assessment.

This strategy supersedes and replaces all previous assessment strategies and supplementary guidance.

1. About the qualification

The purpose of the SVQ 3 in Hairdressing at SCQF Level 6 qualification confirms occupational competence and provides learners with the knowledge, skills and understanding to be a Stylist.

SCQF overall level	6
Learner entry	There are no formal entry requirements for this qualification.
requirements	

1.1 SVQ structure

	SSC code	Unit title	SCQF level	SCQF credit	
Mandatory units – 4 units must be a SKACH8 Creatively style and dress		units – 4 units must be achieved from this group)		
Gro	SKACH8	Creatively style and dress hair	6	7	
	SKACH9	Creatively cut hair using a combination of techniques	6	13	
	SKACH10	Creatively colour and lighten hair	7	14	
	SKACHB14 Provide client consultation services		6	7	
Group B	Optional units – 3 units must be achieved from this group				
Gro	SKAAH7	Provide a variety of relaxing services	7	10	
	SKACH11	Hair colour correction services	7	15	
	SKACH12	Provide creative hair extension services	6	8	
	SKACH13	Create a variety of permed effects	7	10	
	SKACHB15	Develop, enhance and evaluate your creative hairdressing skills	6	9	

SKACHB16	Provide specialist hair and scalp treatments	7	15
SKACHB17	Contribute to the planning, implementation and evaluation of promotional activities	6	10
SKACHB18	Contribute to the financial effectiveness of the Business	6	7

To be awarded the SVQ 3 in Hairdressing at SCQF Level 6 qualification the learner must achieve 7 units; 4 units from Group A and 3 units from Group B.

2. External quality control of assessment

The monitoring and standardisation of assessment decisions must be achieved through robust assessment, internal and external quality assurance systems. These must be reliable, transparent and fit for purpose and, must comply with the requirements of the qualifications regulator.

2.1 Internal Verification

Centres must, in line with regulatory guidance, have an effective internal verification strategy and processes in place to ensure learners are assessed fairly and consistently, and that standards are being met.

To ensure all assessment activities are valid and effective and that Assessors decisions are accurate, a Centre's internal verification process should:

- Identify effective Internal Verifiers who are responsible for implementing these processes If necessary, identify a coordinating Internal Verifier who manages the process
- Produce an effective internal verification policy
- Produce and maintain a clear audit trail of decision making and action
- Produce an internal verification schedule of assessment activities and assessment decisions
- Produce a training and standardisation plan for all those involved in internal verification
- Produce an improvement plan

Internal Verifiers should observe Assessors performing learner assessments at regular intervals according to awarding body guidelines, risk rating and experience of the Assessor. The reliability, validity and authenticity of evidence must be checked during these observations.

An Internal Verifier cannot internally verify either assessment activities they have produced or assessment decisions they have made.

2.2 External Verification

To ensure successful monitoring and standardisation of the assessment activities made by a Centre, the assessment decisions made by an Assessor, and the Centre's internal verification processes an awarding body must have in place a robust external verification system with clear and effective arrangements to ensure consistency in quality. The mechanisms required to achieve this are outlined by the qualification regulator.

In addition to the qualification regulator's requirements all external quality assurance reports and other data relating to a Centre must be reviewed by the awarding body. Where any risks are identified relating to the quality control of assessment the awarding body must have in place an effective risk management and rating system to determine, depending on a Centre's level for risk, the appropriate external quality assurance, monitoring, support and control that should be put in place.

2.3 Risk Assessment

All awarding bodies are required to implement effective risk management and rating systems to help protect the integrity of the qualification, safeguard assessment and verification processes and ensure standards are maintained. These systems should also focus on:

• Conflict of interest

Any personal or professional relationship between learners, Assessors, Internal Verifiers and External Verifiers should be declared.

• Adherence to Centre approval criteria Centres should be continually monitored in addition to its delivery to ensure that the integrity of the qualification is maintained.

Where risk is identified through these systems, awarding bodies will need to act accordingly to ensure the Centre is performing to an acceptable level. This may include, but is not limited to:

- Inspection/spot visit(s)
- Additional monitoring of assessment activities and/or internal verification processes
- Verifying a sample of learners work from each Assessor over an agreed period of time
- Appointment of Independent Verifiers
- Training and development
- Or other action appropriate to the risk

Awarding bodies should be able to demonstrate a risk assessment has been carried out for each Centre and a strategy to minimise any risk identified has been implemented.

3. Workplace assessment

Learners are expected to demonstrate competence to the standards required over a period of time. Therefore, to ensure validity, evidence should be naturally occurring and collected through performance in the workplace.

It is acknowledged not all employers workplaces are the same, therefore assessment conditions may not be identical. However to safeguard the integrity of the qualification and ensure a robust and consistent approach to assessment the Assessor must ensure the assessment conditions reflect, as far as possible, those to which the learner is expected to work.

A holistic approach towards the collection of evidence for this qualification is encouraged. The focus should be assessing activities generated in the workplace, through naturally occurring evidence, rather than focusing on specific tasks. Taken as a whole, the evidence must show the learner meets all learning outcomes and assessment criteria across the scope/range consistently, over a period of time. It should be clear where each learning outcome/assessment criteria has been covered and achieved.

It is imperative the learner is not placed under more, or less, pressure than found normally in the workplace during assessment. It could be the case the learner may feel more pressure simply because he or she is being assessed.

3.1 Units where simulation is permitted

Simulation is not acceptable for any units within this qualification.

3.2 Witness Testimony

A Witness testimony, a statement made by someone present while the learner was performing an activity on-the-job, may be used to support the assessment process and where permitted by the awarding body.

Witness testimony should only be used as an additional method of assessment when all observations have been carried out by an Assessor.

Where Witnesses are used,

- Evidence must be available that demonstrates the individual has the necessary expertise in the area for which they are providing the testimony.
- Any relationship they have with a learner must be declared to the Assessor to determine the value of the testimony provided.
- They must be fully briefed and clear about the purpose of their testimony, it will only be regarded as supporting/supplementary evidence and the final decision regarding the learner's ability to meet the evidence requirements will be the responsibility of the Assessor.

4. Assessment of knowledge and understanding

It is acknowledged the assessment of knowledge and understanding may take place in a different environment, for example a college or another environment which is not the immediate workplace.

The knowledge and understanding required by a learner to support performance in the workplace is detailed within the knowledge and understanding criteria of the Hairdressing and Barbering NOS. It is the responsibility of awarding bodies to ensure Centres are aware of these and have sufficient resources and arrangements in place to support learners to achieve these requirements of this qualification.

4.1 Supporting evidence

Evidence produced by learners must be valid, sufficient, reliable, authentic and current and relate directly to specific assessment criteria. Types of acceptable evidence are valid, but are not limited to:

- Professional discussion
- Portfolio of evidence
- Reflective diary on own practice in an appropriate working environment
- Written assignments
- Projects/case studies
- Coursework
- Task based controlled assessment

4.2 Mandatory Questions

As a minimum requirement, awarding bodies are required to develop appropriate externally set questions to cover the critical areas of knowledge and understanding listed below:

SSC Code	Unit Title	Knowledge areas
SKACHB14	Provide client consultation services	K1 the importance of creating a setting in which clients feel comfortableK5 the importance of not discriminating against clients with illnesses and disabilities and why
		K6 the importance of engaging in conversation and making openings in conversations to encourage clients to speak
		K11 the implications of changes to their existing hair
		and scalp regime K13 your legal responsibilities under current consumer and retail legislation for describing the features and benefits of products and services
		K15 the importance of carrying out tests and the potential consequences of failing to carry out tests
		K16 the types and purposes of tests
		K18 the basic structure of the hair and skin
		K19 the growth cycle of hair
		K20 how different factors limit or affect the services and products that can be offered to clients
		K21 how to visually recognise adverse hair and scalp conditions
		K22 the importance of, and reasons for, not naming specific conditions when referring clients to a general practitioner or trichologist
		K24 the role of other professional such as pharmacist, trichologist, general practitioner, and the specialist services that they can offer
		K25 the limits and boundaries of your duties and responsibilities and why it is important to explain these to the client

K26 the importance of confirming and recording the course of action that is to be taken for the client
K27 how different types of hair characteristics impact on products and services
K28 how different types of hair classification impacts on products and services
K29 how to complete the client records used in your organisation and the importance and reasons for gaining client consent.
K31 the importance of confidentiality and what might happen if this is not maintained

SKACH10	Creatively colour and lighten hair	K4 why it is important to use personal protective equipment
		K13 what contact dermatitis is, and how to avoid developing it whilst carrying out colouring services
		K17 which colouring and lightening services should
		not be carried out on minors under 16 years of age
		K18 the legal significance of client questioning and the recording of client's responses to questioning
		K19 the importance of recognising any contraindications to colouring and lightening services
		K20 the types and purposes of tests
		K21 the importance of following manufacturers' instructions for skin sensitivity tests and the potential consequences of failing to carry out these tests
		K22 when and how tests should be carried out and the importance of recording test results
		K23 how the results of tests can influence the colouring and lightening services
		K24 the courses of action to take in the event of adverse reactions to tests
		K26 the principles of colour selection, including the International Colour Chart (ICC)
		K27 how the natural pigmentation of hair affects the colouring and lightening process

K28 the effects of light and artificial light on the appearance of hair colour
K29 the effects on the hair of different colouring and lightening products
K30 what is meant by the term 'oxidation'
K31 how the type and distribution of melanin creates natural hair colour
K32 how the different strengths of hydrogen peroxide affect the colouring and lightening of the hair
K33 effects of temperature on the application and development of colouring products and lighteners
K34 how different factors may impact on your colouring and lightening service
K35 the importance of constantly monitoring the development of lightening products
K36 the importance of measuring and mixing colours and lighteners following manufacturers' instructions
K37 the reasons for pre-lightening
K38 the pH values of different colouring products and lighteners
K47 how and why to adapt the sequence of application to take account of the relevant factors
K51 the importance of using techniques that minimise the risk of products being spread to your client's skin, clothes and surrounding areas
K52 the importance of applying lightener quickly and accurately taking into account relevant factors influencing the service
K53 the importance of constantly monitoring colouring and lightening process
K54 how the application and removal of lightener should be adapted to minimise scalp sensitivity and hair damage
K55 the importance of restoring the hair's pH balance after the colouring or lightening process
K56 why it is important to avoid disturbing areas still processing when removing products from developed areas

K57 why toners are used after lightening products K58 how and why to restore depth and tone of colour K59 how and why to neutralise colour tone
K61 the types and causes of colouring and lightening problems and how to rectify colouring and lightening problems
K62 the reasons for pre-softening and pre-pigmenting hair
K63 methods of pre-softening and pre-pigmenting hair

SKAAH7	Provide a variety of relaxing services	K6 the safety considerations which must be taken into account when performing the relaxing service
		K15 the legal significance of client questioning and the recording of client's responses
		K16 how and why the contra-indications can affect the delivery of the relaxing service to clients
		K17 how the hair and scalp analysis can affect the choice of products used
		K19 how the results of tests can influence the relaxing service
		K20 potential consequences of failing to conduct tests
		K21 why it is important to record test results
		K22 the courses of action to take in the event of adverse reactions to tests and the
		contraindications in the range
		K23 your own limits of authority for resolving relaxing issues
		K24 the person to whom you should report problems that you cannot resolve
		K27 how hair characteristics may impact on relaxing hair
		K28 the different hair classifications and how these may impact on relaxing hair
		K29 the effects of relaxing products on the hair
		structure

K30 the factors that should be considered when selecting sodium or non-sodium relaxing
products
K31 the different types and uses of available pre and
post-relaxing treatments
K33 the different types of applicators used during
relaxing treatments
K34 why it is important to use scalp protectors
K35 the benefits and effects within pre and post treatments
K37 the importance of preparing the client hair prior to
the relaxing services
K38 the difference between sodium and non-sodium relaxing products
K39 the sequence of product application to correct the relaxing services in the range and why this is
important
K40 how lithium, calcium and guanidine behave to
change the hair structure
K41 the implications of using a hydroxide based
product on ammonium thioglycolate treated hair K42 how to identify the difference between hair porosity and natural keratinisation
K43 the percentage of the hair length that is acceptable to leave when transferring from an ammonium thioglycolate based product to a hydroxide based product
K44 how to texturise hair
K47 the causes of mid length, end and root
underprocessing and how to correct them
K48 the consequences of under-processing and overprocessing the hair
K49 how neutralising shampoos work and their effect on the hair structure
K50 when corrective relaxing treatments should not be used
K51 the potential consequences of using relaxing products on colour treated hair and white hair and how to deal with them
K52 the importance and effects of restoring the hair's pH balance after the relaxing process
·

K53 the importance of accurate timing K54 why it is necessary for the thorough rinsing of
products K55 the importance of having a sufficient time lapse between relaxing and a corrective relaxing service
K57 how to deal with scalp irritation during and after the relaxing process

SKACH12	Provide creative hair extension services	K17 the factors that must be taken into consideration prior to adding and attaching hair extensions
		K18 the hair growth cycle
		K19 the importance of questioning clients to establish any contra-indications to hair extension services
		K20 how contra-indications can affect or restrict the delivery of hair extension services
		K21 the legal significance of client questioning and of recording the client's responses
		K23 the types and purposes of tests
		K24 how the results of tests can influence all aspects of
		the service

	1	1
		K25 the potential consequences of failing to carry out tests and the importance of recording test results
		K26 the types of hair extension systems available and their advantages and disadvantages
		K27 the principles for selecting the correct hair attachment systems
		K28 the principles for blending added hair
		K31 how to mix a number of added hair colours to give block colour and highlighting effects
		K34 how to estimate the length of time the hair attachment systems can take
		K38 why it is important to maintain a correct and even tension when adding hair extensions
		K40 the types of problems that can occur when adding hair extensions and how to remedy them
		K41 the types of anxieties commonly experienced by clients undergoing the different hair attachment systems such as natural hair shedding
		K52 why it is important to remove hair attachment residue and product build up as part of the extension removal process
		' ·
SKACH13	Create a variety of permed effects	K4 why it is important to use personal protective equipment
		K10 what contact dermatitis is, and how to avoid developing it whilst carrying out perming and neutralising services
		K16 the legal significance of client questioning and the recording of client's responses
		K17 the importance of recognising any contraindications to perming and neutralising services
		K18 the types and purposes of tests used for perming services
		K20 how the results of tests can influence the perming service
		K21 potential consequences of failing to conduct test
		K22 the courses of action to take in the event of
1		adverse reactions to tests

· · · · · · · · · · · · · · · · · · ·	
	K23 the chemical composition of perming and neutralising products
	K24 the effects of perm lotions and neutralisers on
	the hair structure
	K25 the effects of pre-perm and post-perm treatments on the hair structure
	K26 how temperature affects the perming process
	K27 the importance of accurate timing and thorough rinsing of products
	K28 the importance and effects of restoring the hair's pH balance after the perming and neutralising process
	K29 how different factors can affect your choice of perming and neutralising products
	K30 how hair sensitised from previous treatments and heat damage reacts to perming products
	K31 why it is important to protect your client's hair and skin before the perming service
	K33 how and why the contra-indications can affect perming services
	K39 how and why it is necessary to adapt your working methods and choice of perming products to suit sensitised hair
	K41 the effects of overlapping products on previously chemically treated hair
	K47 types and causes of problems that can occur
	during the perming process and how to rectify them

SKACH11	Hair colour correction services	K4 why it is important to use personal protective equipment
		K12 the current legal requirements and guidance relating to age restrictions for colour correction services
		K18 the importance of determining the nature and extent of the colouring problem
		K19 the legal significance of client questioning and the recording of client's responses to questioning
		K20 the importance of reviewing and updating client's records with their hair colouring and or lightening history and how this may affect the colour correction service
		K21 the importance of recognising any contraindications and why the contra-indications can affect the delivery of the colour correction service
		K22 the types and purposes of tests
		K23 the importance of following manufacturers' instructions for skin sensitivity tests and the potential consequences of failing to carry out these tests
		K24 when and how tests should be carried out and the importance of recording test results
		K25 how the results of tests can influence the colour correction services
		K26 the courses of action to take in the event of adverse reactions to tests
		K29 the importance of explaining the likelihood of achieving and maintaining the colour change to the client
		K30 the effects of light and artificial lighting on the appearance of hair colour
		K31 the potential problems of using colour correction products on previously chemically treated hair
		K32 how different factors may impact on colour correction services
		K33 the importance of informing your client of the likely cost, duration and expected outcome of the colour correction service and any restrictions

your recommendations may place on further hairdressing services
K34 the principles of colour selection, including the International Colour Chart (ICC)
K35 the principles of colour correction
K36 how the type and distribution of melanin creates natural hair colour
K37 the effects on the hair of different colour correction products
K38 what is meant by the term 'oxidation'
K39 how oxidation agents affect the natural and artificial colour pigments
K40 the pH values of differing colouring products and lighteners
K41 the importance of gaining and recording your client's agreement to the service, products and anticipated outcome
K45 the importance of following manufacturers' instructions when measuring and mixing colour correction products
K46 how and why pre and post treatments should be used when carrying out colour correction services
K47 how the different strengths of hydrogen peroxide affect colouring and lightening
K48 the reasons for pre-softening and pre-pigmenting hair
K49 effects of temperature on the application and development of colour correction products
K50 the importance of using application techniques that minimise the risk of colour being spread to the client's skin, clothes and surrounding areas
K51 why it is important to avoid disturbing areas still processing when removing products from developed areas
K53 methods of pre-softening and pre-pigmenting hair
K54 how to remove artificial colour
K55 how to remove bands of colour

K56 how to re-colour hair previously treated with lighteners using pre-pigmentation and permanent colour
K57 how to re-colour hair that has had artificial colour removed
K58 how the application and removal of lightener should be adapted to minimise scalp sensitivity and hair damage
K60 the importance of restoring the hair's pH balance after the colour correction service
K61 the types and causes of colour correction problems that may occur during processing and how to rectify them
K62 how to correct highlights and lowlights whilst retaining a highlight and lowlight effect
K63 why it is important to leave the hair and scalp free of colour correction products

SKACHB16	Provide specialist hair and scalp treatments	K7 The correct use and maintenance of tools and equipment
		 K15 how to recognise hair and scalp conditions K16 how other signs and symptoms can give an indication of the cause of the problem and confirm the required course of action K17 the likely causes of adverse hair and scalp
		conditions
		K19 the active ingredients in specialist hair and scalp products and how they work
		K20 the different types of medical treatments for hair loss
		K21 the effects and benefits of different massage techniques
		K22 the effects and benefits of different tools and equipment
		K23 how to recognise erythema and hyperaemia and its causes
		K24 the anatomy and physiology of the head and scalp and how this impacts on the hair and scalp

K25 the hair growth cycle and how this influences present and future treatments
K26 the reasons for normal and abnormal hair growth such as topical, congenital, systemic
K27 the general factors that contribute to healthy hair and scalp
K28 the different types of hair loss, alopecia, their causes and how to recognise them
K29 the stages of male and female pattern hair loss using different classifications such as Hamilton and Ludwig
K30 the types and purposes of conducting tests
K31 when tests should be carried out and the importance of recording results
K32 possible contra-actions that may occur during and post treatment and how to deal with them
K34 how different factors can influence the treatment choice, tools equipment and application selected
K35 the importance of adapting massage techniques, treatments and equipment to suit the hair and scalp condition and the client's needs
K36 the different types of technological advancements for the treatment of hair and scalp conditions
K37 the effects of chemotherapy and radiotherapy on hair growth
K39 the importance of ensuring the hair and scalp are left clear of treatment products
K40 the importance of explaining the potential need for a course of treatment to ensure the best possible results
K41 the importance of evaluating the effectiveness of the hair and scalp treatment

All externally set questions must be carried out under closed book conditions. The confidentiality of the questions and answers must be maintained under secure conditions.

4.3 E-Assessment

Where e-assessment is used, it must meet the requirements of the regulator and have prior approval from awarding bodies to ensure the criteria is assessed to the standard required and, the tool(s) utilised are reliable, sufficient, valid and current.

Awarding bodies must provide Centres with advice and guidance as to the hardware, operating systems and installation requirements and provide technical support to Centre's upon request.

5. Occupational competence requirements for those involved in the assessment process

The occupational expertise of Witnesses, Assessors and those responsible for the internal/external verification of this qualification is one of the key factors underpinning valid, fair and reliable assessment. Therefore, ensuring the integrity and professionalism of this workforce is of paramount importance and they must be given sufficient time to carry out their role effectively.

5.1 Witness

The role of the Witness is to submit evidence to the Assessor regarding the competence of the learner in meeting the standards identified in any given unit. This evidence must directly relate to the learners performance in the work place which has been observed first hand by the Witness. Therefore, those who could fulfil the role of a Witness for this qualification could include, but are not limited to:

- Stylist; or
- Salon manager; or
- Receptionist; or
- Trainer; or
- Marketing director; or
- Client

It is not necessary for Witnesses to hold an Assessor qualification as it is the responsibility of the Assessor to make the final assessment decision(s) about the acceptability of all evidence submitted, regardless of source regardless of the source.

5.2 Assessor

The Assessor must hold, or be working towards; a valid Assessor's qualification based on LSIS, formally LLUK, Learning and Development National Occupational Standards (2010):

- Learning and Development Unit 9D Assess workplace competence using direct methods; or
- Learning and Development Unit 9DI Assess workplace competences using direct and indirect methods; or
- Level 3 Certificate in Assessing Vocational Achievement (QCF); or
- Level 3 Award in Assessing Competence in the Work Environment (QCF);

or hold one of the following

- A1 Assess candidates using a range of methods; or
- D32/33 Assess candidate performance, using differing sources of evidence

A list of acceptable Assessor and Verifier qualifications is available on the SQA Accreditation website.

NB: Holders of A1 and D32/33 qualifications must work to the reviewed National Occupational Standards for Learning and Development.

The Assessor must also be:

	Definition
Occupationally	The Assessor must hold:
competent	 SVQ 3 in Hairdressing at SCQF Level 6 or an equivalent recognised qualification
	 and/or must have sufficient operational experience within the hairdressing industry thatcan be evidenced, is current and relevant to the qualification. Experience could be gained through time in a role in the hairdressing industry which could include, but is not limited to: Stylist Trainer Technician/specialist Lecturer Salon manager Verifier

Where individuals have qualifications other than the above, their Centre should contact their awarding body to determine the acceptability of their qualification(s).

Familiar with the qualification	The Assessor must have an in-depth technical knowledge of the qualification, units and standards of competencies required. They must be able to interpret current working practices, technologies and products within the area of work and be committed to upholding the integrity of the qualification.
Credible	The Assessor should have access to, and be engaging with, continuous professional development activities in order to keep up to date with developments and any issues relevant to the qualification and/or its units. These may include those offered by the awarding body or other recognised and relevant providers in the sector.
	A minimum of 30 hours CPD is required per annum (1 st September – 31 st August) which must be demonstrated through a personal development plan (PDP) or as a reflective diary. Responsibility for CPD is the individuals, not the Centre they work for.

Assessors

Awarding bodies may approve individuals to assess this qualification who have not yet achieved their Assessor's qualification. However, these individuals must be working towards the qualification and meet the other requirements. Should an unqualified Assessor be used they must be fully supported and have their assessment decisions countersigned by a qualified Assessor to ensure the learner has achieved the required standard.

5.3 Internal Verifier

The Internal Verifier must hold a valid Assessor qualification and hold or be working towards a verifier's qualification based on LSIS, formally LLUK, Learning and Development National Occupational Standards (2010):

Assessing qualifications:

- Learning and Development Unit 9D Assess workplace competence using direct methods; or
- Learning and Development Unit 9DI Assess workplace competences using direct and indirect methods; or
- Level 3 Certificate in Assessing Vocational Achievement (QCF); or
- Level 3 Award in Assessing Competence in the Work Environment (QCF); or
- A1 Assess candidates using a range of methods; or

• D32/33 Assess candidate performance, using differing sources of evidence.

Verifying qualifications:

- Learning and Development Unit 11 Internal Quality Assurance; or
- Level 4 Award in the Internal Quality Assurance of Assessment Processes and Practice (QCF); or
- V1 Conduct Internal Quality Assurance of the Assessment Process; or □ D34 Internally Verify the Assessment Process

A list of acceptable Assessor and Verifier qualifications is available on the SQA Accreditation website.

NB: Holders of A1, D32/33, V1 and D34 qualifications must work to the reviewed National Occupational Standards for Learning and Development.

The Internal Verifier must also be:

	Definition
Occupationally	The Internal Verifier must hold:
competent	 SVQ 3 in Hairdressing at SCQF Level 6 or an equivalent recognised qualification and/or must have sufficient operational experience within the hairdressing industry that can be evidenced, is current and relevant to the qualification. This must be of sufficient depth to be effective and reliable when verifying judgements about Assessor's assessment processes and decisions.
	Where individuals have qualifications other than the above, their Centre should contact their awarding body to determine the acceptability of their qualification(s).
Familiar with the qualification	The Internal Verifier must have an in-depth technical knowledge of the qualification, units and standards of competencies required. They must be able to interpret current working practices, technologies and products within the area of work and be committed to upholding the integrity of the qualification.
Credible	The Internal Verifier should have access to, and be engaging with, continuous professional development activities in order to keep up to date with developments and any issues relevant to the qualification and/or its units. These may include those offered by the awarding body or other recognised and relevant providers in the sector

A minimum of 30 hours CPD is required per annum (1st September – 31st August) which must be demonstrated through a personal development plan (PDP) or as a reflective diary. Responsibility for CPD is the individuals, not the Centre they work for.

Internal Verifiers

Awarding bodies may approve individuals to verify this qualification who have not yet achieved their verifier's qualification. However, these individuals must be working towards the qualification and meet the other requirements. Should an unqualified Internal Verifier be used they must be fully supported and have their decisions countersigned by a qualified Internal Verifier to ensure the learner has achieved the required standard.

5.4 External Verifier

The External Verifier must hold, a valid Assessor and Internal Verifier qualification and hold or be working toward a valid External Verifier qualification based on LSIS, formally LLUK, Learning and Development National Occupational Standards (2010):

Assessing qualifications:

- Learning and Development Unit 9D Assess workplace competence using direct methods; or

A list of acceptable Assessor and Verifier qualifications is available on the SQA Accreditation website.

NB: Holders of V2 and D35 qualifications must work to the reviewed National Occupational Standards for Learning and Development.

The External Verifier must also be:

	Definition
Occupationally competent	The External Verifier must hold:
	 SVQ 3 in Hairdressing at SCQF Level 6 or an equivalent recognised qualification
	 and/or must have sufficient operational experience within the hairdressing industry that can be evidenced, is current and relevant to the qualification. This must be of sufficient depth to be effective and reliable when verifying judgements about internal verification and assessment processes and decisions.
	Where individuals have qualifications other than the above, theirCentre should contact their awarding body to determine the acceptability of their qualification(s).
Familiar with the qualification	The External Verifier must have an in-depth technical knowledge of the qualification, units and standards of competencies required. They must be able to interpret current working practices, technologies and products within the area of work and be committed to upholding the integrity of the qualification.
Credible	The External Verifier should have access to, and be engaging with, continuous professional development activities in order to keep up to date with developments and any issues relevant to the qualification and/or its units. These may include those offered by the awarding body or other recognised and relevant providers in the sector.
	A minimum of 30 hours CPD is required per annum (1st September – 31st August) which must be demonstrated through a personal development plan (PDP) or as a reflective diary. Responsibility for CPD is the individuals, not the awarding body they work for.
