Evidence Requirements for the Unit

Assessors should use their professional judgement, subject knowledge and experience, and understanding of their learners, to determine the most appropriate ways to generate evidence and the conditions and contexts in which they are used.

For this Unit, learners will be required to provide evidence of their reading and listening skills by:

♦ understanding, analysing and evaluating at least one detailed and complex written Scottish text
♦ understanding, analysing and evaluating at least one detailed and complex spoken language activity with a Scottish focus or in Scots/dialect of Scots

Evidence should be gathered in combination with other Outcomes where possible, either from this Unit or in combination with the Outcomes from the English: Creation and Production (Higher) Unit. Evidence may also be gathered for individual Outcomes where appropriate.

Assessment evidence gathered for this Unit must come from at least one of the following contexts: literature, language or media.
Development of skills for learning, skills for life and skills for work

It is expected that learners will develop broad, generic skills through this Unit. The skills that learners will be expected to improve on and develop through the Unit are based on SQA’s *Skills Framework: Skills for Learning, Skills for Life and Skills for Work* and drawn from the main skills areas listed below. These must be built into the Unit where there are appropriate opportunities.

1. **Literacy**
   - 1.1 Reading
   - 1.2 Writing
   - 1.3 Listening and talking

5. **Thinking skills**
   - 5.3 Applying
   - 5.4 Analysing and evaluating

Amplification of these is given in SQA’s *Skills Framework: Skills for Learning, Skills for Life and Skills for Work*. The level of these skills should be at the same SCQF level as the Unit and be consistent with the SCQF level descriptor. Further information on building in skills for learning, skills for life and skills for work is given in the *Unit Support Notes*.
