

THE JCCP'S 10 POINT PLAN

The Joint Council For Cosmetic Practitioners is an organisation working closely with government and national bodies seeking greater regulation on non-surgical aesthetic treatments and hair restoration surgery in the UK. Our ultimate aim is to create a safer environment for members of the public undergoing non-surgical treatments with mandated qualifications, premises criteria, insurance and many other steps relating to the sector and industry. Our 10 Point Plan lays out the campaigns we carry out and the goals we seek.

1

STATUTORY REGULATION

Seek and advise on **statutory regulation** for the non-surgical aesthetics and hair restoration surgical sector.

2

MANDATORY EDUCATION AND TRAINING STANDARDS

Government and education/training regulators in the UK to mandate specific qualifications, education and training requirements for specific modalities.

3

CLEAR, TRANSPARENT, INFORMATION

Aesthetic service providers to clearly display simple, informative guides on all services provided including risks, benefits, costs, qualifications, and insurance to members of the public.

4

LEGAL DEFINITION OF MEDICAL TREATMENTS

Work with Government agencies to **clearly define in law what constitutes** a 'medically related service' and what is 'cosmetic only'.

5

SAFE AND ETHICAL PRESCRIBING

Implement **robust standards and regulation for safe, ethical and professional prescribing** within non-surgical aesthetics.

6

MORE REGULATED ADVERTISING AND SOCIAL MEDIA

Tighter **controls and penalties on exaggerated, inaccurate and misleading advertising and social media posts** in relation to aesthetic treatments, hair restoration and training.

7

NATIONAL COMPLICATIONS REPORTING

Introduce enhanced and co-ordinated **processes for the reporting and analysis of complications** at a national level.

8

ADEQUATE INSURANCE COVER

Legislate all cosmetic non-surgical aesthetics and hair restoration surgical practitioners to hold **robust and adequate indemnity insurance covering each service provided**.

9

LICENSING OF PREMISES, TREATMENTS AND PRACTITIONERS

Set **nationally agreed standards for licensing and regulating premises, treatment procedures and individuals**.

10

RAISING CONSUMER AWARENESS

Raise public awareness of the risks and benefits associated with non-surgical treatments and hair restoration surgery.
