Equality and inclusion

This *Unit Specification* has been designed to ensure that there are no unnecessary barriers to learning or assessment. The individual needs of learners should be taken into account when planning learning experiences, selecting assessment methods or considering alternative evidence. For further information, please refer to the *Unit Support Notes*.

Standards

Outcomes and Assessment Standards

Outcome 1

The learner will:

- 1 Contribute to the planning and organisation of an outdoor activity by:
- 1.1 Identifying the arrangements for an outdoor activity
- 1.2 Identifying the tasks to be completed in preparation for an outdoor activity
- 1.3 Identifying the equipment and/or resources required for an outdoor activity

Outcome 2

The learner will:

- 2 Participate in an outdoor activity by:
- 2.1 Carrying out tasks allocated by the organiser
- 2.2 Working co-operatively with others

Evidence Requirements for the Unit

Assessors should use their professional judgement, subject knowledge and experience, and understanding of their learners, to determine the most appropriate ways to generate evidence and the conditions and contexts in which they are used.

Evidence may be presented for individual Outcomes or it may be gathered for the Unit as a whole through integrating assessment for both Outcomes. If the latter approach is used, it must be clear how the evidence covers each Outcome.

For Outcome 1, evidence is required which demonstrates the learner's contribution to the planning and organisation of an outdoor activity by the identification of the arrangements, tasks and items of equipment and/or resources required for the outdoor activity.

For Outcome 2, evidence is required which demonstrates the learner's participation in an outdoor activity by carrying out tasks allocated by the organiser of the outdoor activity. Evidence is also required which demonstrates that the learner worked cooperatively with others.

It is expected that learners will receive support to achieve the Outcomes of this Unit.

For this Unit, evidence could include audio and/or audio-visual files recorded on CD and/or DVD, printed materials, observation checklists, logs, recorded oral responses, photographic evidence, video evidence, or their equivalent. Assessors should be confident that there is sufficient evidence to support their judgement that the Assessment Standards have been met. Evidence may be gathered using the learner's usual means of communication.

Exemplification of assessment is provided in *Unit Assessment Support*. Advice and guidance on possible approaches to assessment is provided in the *Unit Support Notes*.

Development of skills for learning, skills for life and skills for work

It is expected that learners will develop broad, generic skills through this Unit. The skills that learners will be expected to improve on and develop through the Unit are based on SQA's *Skills Framework: Skills for Learning, Skills for Life and Skills for Work* and drawn from the main skills areas listed below. These must be built into the Unit where there are appropriate opportunities.

- 1 Literacy
- 1.3 Listening and talking
- 3 Health and wellbeing
- 3.2 Emotional wellbeing
- 3.5 Relationships
- 4 Employability, enterprise and citizenship
- 4.3 Working with others

Amplification of these is given in SQA's *Skills Framework: Skills for Learning, Skills for Life and Skills for Work.* The level of these skills should be at the same SCQF level as the Unit and be consistent with the SCQF level descriptor. Further information on building in skills for learning, skills for life and skills for work is given in the *Unit Support Notes*.
