## Media: Investigating Media Products (National 2)

**SCQF:** level 2 (6 SCQF credit points)

**Unit code:** H8M0 72

### Unit outline

The general aim of this Unit is to opportunities for learners to investigate media and media products.

Learners who complete this Unit will be able to:

- 1 Explore media products.
- 2 Investigate given media products.

The *Unit Specification* should be read in conjunction with the *Unit Support Notes*, which provide advice and guidance on delivery, assessment approaches and development of skills for learning, skills for life and skills for work. Exemplification of the standards in this Unit is given in *Unit Assessment Support*.

## **Recommended entry**

Entry to this Unit is at the discretion of the centre. However, relevant experiences and outcomes may provide an appropriate basis for doing this Unit.

## **Equality and inclusion**

This *Unit Specification* has been designed to ensure that there are no unnecessary barriers to learning or assessment. The individual needs of learners should be taken into account when planning learning experiences, selecting assessment methods or considering alternative evidence. For further information, please refer to the *Unit Support Notes*.

# Standards

## Outcomes and Assessment Standards

### Outcome 1

The learner will:

#### **1 Explore media products by:**

- 1.1 Identifying types of media and media products
- 1.2 Identifying the main purpose(s) of given media products
- 1.3 Communicating a personal response to given media products

### Outcome 2

The learner will:

#### **2 Investigate given media products by:**

- 2.1 Identifying the main features of given media products
- 2.2 Identifying target audience(s) for given media products
- 2.3 Identifying how links are made between the main features and target audience(s) for given media products

## Evidence Requirements for the Unit

Assessors should use their professional judgement, subject knowledge and experience, and understanding of their learners, to determine the most appropriate ways to generate evidence and the conditions and contexts in which they are used.

Evidence may be presented for individual Outcomes or it may be gathered for the Unit as a whole through integrating assessment for both Outcomes. If the latter approach is used, it must be clear how the evidence covers each Outcome.

For Outcome 1, evidence is required which demonstrates the learner's identification of at least two different types of media and their associated media products. Evidence is required which demonstrates the learner's identification of the main purpose(s) of at least two given media products. Evidence is also required which demonstrates the learner's communication of a personal response for each of the given media products.

For Outcome 2, evidence is required which demonstrates the learner's identification of the main features for at least two different given media products. Evidence is required which demonstrates the learner's identification of the target audience(s) for at least two different media products. Evidence is also required which demonstrates the learner's identification of the links between the main features and target audience(s) for each of the given media products.

It is expected that learners will receive support to achieve the Outcomes of this Unit.

For this Unit, evidence could include audio and/or audio-visual files recorded on CD and/or DVD, printed materials, observation checklists, logs, recorded oral responses,

photographic evidence, video evidence, or their equivalent. Assessors should be confident that there is sufficient evidence to support their judgement that the Assessment Standards have been met. Evidence may be gathered using the learner's usual means of communication.

Exemplification of assessment is provided in *Unit Assessment Support*. Advice and guidance on possible approaches to assessment is provided in the *Unit Support Notes*.

# Development of skills for learning, skills for life and skills for work

It is expected that learners will develop broad, generic skills through this Unit. The skills that learners will be expected to improve on and develop through the Unit are based on SQA's *Skills Framework: Skills for Learning, Skills for Life and Skills for Work* and drawn from the main skills areas listed below. These must be built into the Unit where there are appropriate opportunities.

## 1 Literacy

1.3 Listening and talking

## 5 Thinking skills

5.1 Remembering

5.2 Understanding

Amplification of these is given in SQA's *Skills Framework: Skills for Learning, Skills for Life and Skills for Work*. The level of these skills should be at the same SCQF level as the Unit and be consistent with the SCQF level descriptor. Further information on building in skills for learning, skills for life and skills for work is given in the *Unit Support Notes*.
