

Qualification approval

Are you considering offering a new qualification?

Follow the steps below to ensure you are approved and ready to sign up learners.

Check if approval is required

Visit SQA Connect to check if the course/units require approval for your centre. You can find this information under My Centre (approved groupings and approved units).

Not on the auto-approved list?

To offer SQA qualifications, you must go through our approval process. There are two types: systems approval and qualifications approval. If you are already an approved SQA centre, you only need qualification approval.

Learners can not be entered or certificated if you do not have approval. Forms and guidance, depending on the level of qualification you would like to offer, are available on our website.
