Required Actions (RA)		Date Agreed		
The following required actions were identified, discussed and agreed:				
<i>E3 In order to determine the need for an assessment arrangement, there must be evidence that the nature and degree of the difficulty has been assessed together with the impact on learning and assessment. Evidence could include psychological and other assessments, Individual Learning Plans, support plans and records. Information may start in Primary School and be comprehensive. This evidence should be checked as part of the pre internal verification meeting check. An action plan of how this information will be sourced and internally verified for all future Diets must be forwarded to the SQA Auditor.</i>				
<i>E4 Most candidates requiring assessment arrangements will need ongoing support on a regular basis to ensure that they are not disadvantaged during their course. Evidence could include a plan and record of support from support staff, staff in class and/ or in the learning base and/ or details of support regularly required from subject teachers. Evidence should be checked as part of the pre-internal verification meeting check. An action plan of how this information will be sourced and internally verified for all future Diets must be forwarded to the SQA Auditor.</i>				
<i>E5 Staff were advised that a consistent approach is taken across the school with regard to the annotation and retention of evidence for assessment arrangements, as this will facilitate decisions regarding the sufficiency of evidence prior to the verification meeting. Staff should be directed to complete a subject evidence form fully on each occasion that it is used, and to ensure that the evidence is clearly and consistently annotated with the required information.</i>				
<i>E6 Staff were advised that if using class work and/ or homework as evidence this must be clearly annotated and must demonstrate that the proposed assessment arrangement make a difference. Evidence should be of equal demand and current.</i>				
<i>E7 The centre should develop this further, for example they should include information on roles and responsibilities of all involved, the process to be followed, the forms to be used and the timeline to be kept to.</i>
