Developing the Workforce of Tomorrow

Scotland’s young people are our future — they are the workforce of tomorrow.
Developing Scotland’s Young Workforce

Developing the Young Workforce (DYW) is the Scottish Government’s seven year initiative to improve the options available to young people, reducing youth unemployment by preparing young people for the workplace and giving them the skills that employers are looking for.

SQA plays an important part in this initiative as we are uniquely placed to support Scotland’s young workforce. By working together with training providers, employers, colleges and schools to ensure young people have the skills and qualifications employers are looking for.

SQA Journeys

SQA has a wide range of robust, relevant and respected qualifications which are designed in partnership with industry experts to ensure learners gain the skills and experience needed in the workplace.

We have created SQA Journeys to support the Developing Young Workforce initiative. SQA Journeys includes case studies and videos featuring young people talking about their own journeys, endorsements from recognised industry bodies and employers, along with details of SQA qualifications available by sector.

Help inspire a generation

SQA Journeys aims to inspire the next generation, enabling individuals to succeed in their lives and achieve their goals. Everyone has a part to play, so that everyone benefits – our young people, our businesses and Scotland as a whole.
