Summary of Conclusion and recommendation	
<p>Music Technology is a practical subject, therefore some potential barriers, particularly to disabled learners, may arise in this Course. However, assistive technologies and adapted equipment may be used to allow learners to demonstrate the required skills for assessment.</p> <p>This, coupled with the open and flexible nature of the assessment requirements, (where assessment can be tailored to suit individual learners' needs) will mitigate the identified barriers for disabled candidates.</p>
