
Morning. I'm just sending you a reply from [redacted] (East Ren Council). Sorry, I know how busy you are, I would normally deal with this myself, but just want to triple check everything with you before I reply. If you have 5 mins this morning, could we catch up?

Hi free now if you want to chat

Hi spoke to [redacted] and they are in a team day in Optima today so spoke to a few LMs too, not totally straightforward and I did say this isnt really an RM query anymore and she agreed. So I would get in touch with [redacted] who is waiting on you to email her and she can take it forward. I think the concern is that they can do the sitting at at another school but the school making the entry is responsible for everything else including any other assessment info but [redacted] can keep us right!

That's excellent- thank you so much [redacted] I will bring [redacted] back into the conversation now it appears to have changed. I will recap and outline all their options now. Thanks again
