Lead – John M

Awarding Model (MVP)

Detail of model, data flow and dependencies

Lead - James M

Data, Certification and Reports

Define scope of reporting – implications of revised awarding model – position of reporting outside of N5/H/AH

Lead – David F

PRS - Appeals

Rules, Operating Model and System Requirements

Lead – Robert Q

Hi All,

Following this morning's meeting of CoPGG, please find attached a proposed structure for organising projects getting us from A to B following recent announcements. I appreciate that I haven't updated this doc to reflect that there could another lead for the appeals strand but I hope this gives you a starter for ten for discussion.

As timing is of the essence (as if we would need reminding), I would be keen to start talking about the project membership asap.

Looking forward to hearing from you.

Thanks

Jean
