## **Marking Instructions**

**Gàidhlig  
Èisteachd**

Gàidhlig Listening

Please note that these marking instructions have not been standardised based on candidate responses. You may therefore need to agree within your centre how to consistently mark an item if a candidate response is not covered by the marking instructions.

## General marking principles for Higher Gàidhlig Listening

*Always apply these general principles. Use them in conjunction with the detailed marking instructions, which identify the key features required in candidates' responses.*

- (a) Always use positive marking. This means candidates accumulate marks for the demonstration of relevant skills, knowledge and understanding; marks are not deducted for errors or omissions.
- (b) If a candidate response does not seem to be covered by either the principles or detailed marking instructions, and you are uncertain how to assess it, you must seek guidance from your team leader.
- (c) Candidates gain marks for their understanding of the ideas of the passage, and their analysis and evaluation of the speaker's use of language.
- (d) Accept answers other than those in the marking instructions, as long as they are relevant and appropriate. Award marks according to the accuracy and relevance of the candidate's response.
- (e)
  - (i) For questions that ask simply '**Carson...**', candidates must give a brief, accurate response/name.
  - (ii) For questions that ask '**Minich...**' or ask '**Ciamar...**', candidates must relate cause and effect and/or make relationships between things clear.
  - (iii) For questions that ask '**Seall mar a tha...**', candidates must identify features of language and discuss their relationship with the ideas of the passage as a whole. Features of language might include, for example word choice, imagery, tone, sentence structure, punctuation, sound techniques.
  - (iv) For questions that ask '**Carson, nad bheachd...**', candidates must make a personal judgement based on the text and task.
