

NQ verification 2022–23 round 2

Qualification verification summary report

Section 1: verification group information

Verification group name:	Graphic Communication
Verification activity:	Event
Date published:	June 2023

National Units verified

Unit code	Unit level	Unit title
J1XG 75	SCQF level 5	2D Graphic Communication
J1XJ 75	SCQF level 5	3D and Pictorial Graphic Communication
J251 76	SCQF level 6	2D Graphic Communication
J252 76	SCQF level 6	3D and Pictorial Graphic Communication
J1X8 77	SCQF level 7	Technical Graphics

Section 2: comments on assessment

Assessment approaches

Most verified centres used a portfolio approach.

This was expected as many of the candidates would initially have been in the National 5, Higher and Advanced Higher courses, and they would have had evidence from these, which could be used to demonstrate many of the freestanding unit assessment standards.

Assessment judgements

Most verified centres had correctly applied the national standards to their judgements.

Centres should take notice of the assessment standard thresholds which apply to all freestanding units to ensure that candidates are given overall passes appropriately.

Section 3: general comments

The standard of candidate evidence presented was either at or well above the national standards for all levels.

Almost all centres had evidence of internal verification, most of which was of an extremely high quality and calibre.

For outcomes where the centre is presenting oral evidence for any assessment standards, centres must supply a transcript of the conversation with the candidate or other supporting evidence along with any assessor's comments; this allows internal or external verification of any judgements made.
