

# Subject guidance for internally assessed qualifications in 2020-21

Please read this document in conjunction with [guidance for the assessment of internally assessed qualifications issued to centres in August 2020](#).

<b>Group Award title:</b>	Skills for Work – National 5 Health Sector
<b>Group Award code:</b>	C261 75

## Units and/or outcomes where conditions of assessment can or cannot be altered

All units should be completed following local authority guidance.

Centres should focus on individual work and avoid group work where possible. Presentations and talks should be conducted digitally whenever possible. Site visits should be conducted virtually if possible.

## Adaptations to evidence requirements to help manage assessment

No group work required.

F88J 75 – Physiology of the Cardiovascular System

- ◆ No requirement for completion of the practical components of physiological measurements and first aid techniques.

## Rationale

The National 5 Health Sector course contains several practical elements, teamwork, visits and guest speakers. It would be very difficult to carry out all practical work in session 2020-21 because of current restrictions with carrying out practical work under social distancing requirements and local authority health and safety protocols. These modifications ensure that the validity and integrity of the course is maintained while considering the safety of teachers, lecturers and candidates.
